Dear Colleague:

The Governing Board instituted the AGA/Industry Research Scholar Program in 1983 as a means of supporting young investigators who are studying the biology of the digestive organs and their diseases.

This Research Scholar Program has been made possible by a partnership between the AGA and selected pharmaceutical companies. This partnership has yielded grants to 32 Research Scholars over the past 6 years. A second result of the AGA/Industry Partnership has been the formation of an AGA/Industry Council. The Council, composed of 15 partner-companies and AGA representatives, has several goals:

(1) To supervise the AGA/Industry Research Scholar Program and ensure its continuity.

(2) To encourage cooperation between gastroenterologists and the pharmaceutical industry in dealing with problems of common interest to both.

(3) To cooperate with the AGA on special projects such as sponsorship of publications.

In 1984 the Council jointly sponsored and funded the 5-year index of Gastroenterology, the official publication of our society.

This year the AGA again asked our Industry Partners to join us in funding the 5-year index. We are very grateful to the following companies for their generous support for this important index to our Journal:

Eli Lilly and Company
Glaxo Incorporated
Hoffmann-LaRoche
Janssen Pharmaceutica
Marion Laboratories
Merrell Dow Research Institute
Pharmacia, Incorporated
The Procter & Gamble Company
Rorer Consumer Pharmaceuticals
Sandoz Pharmaceuticals Corporation
G.D. Searle
Smith Kline & French Laboratories
Syntex Laboratories, Incorporated

On behalf of the Association, we take this opportunity to acknowledge the important contributions that members of this Council have made to the AGA over the past 6 years.

Robert M. Glickman MD
Robert M. Glickman, MD

General Information

GASTROENTEROLOGY: GASTAB 96(6, Supplement) 1–214 (1989) ISSN 0016-5085
© 1989 by the American Gastroenterological Association

Gastroenterology is abstracted/indexed in *Biological Abstracts, Chemical Abstracts, Current Contents, Excerpta Medica, Index Medicus, Nutrition Abstracts,* and *Science Citation Index.*

Second class postage paid at New York, NY and at additional mailing offices. Issued monthly in two indexed volumes per year by Elsevier Science Publishing Co., Inc., 655 Avenue of the Americas, New York, NY 10010. Printed in U.S.A. at 2901 Byrdhill Road, Richmond, VA 23228. 1989 Subscription Rates: Institutional, $160.00; individual, $100.00; special in-training rate for a period of 3 years to residents, fellows, interns, and students, $55.00. In requesting this special rate, please give training status and name of institution. Outside of the U.S. and possessions, please add $50.00 for surface postage and handling. For air mail, add $98.00 in U.S.A., Canada, and Mexico. For surface air-lift, add $100.00 in Europe and $130.00 in Japan. For air mail in all other areas of the world, add $265.00. Claims for missing issues can be honored only up to 3 months for domestic addresses and 6 months for foreign addresses. Duplicate copies will not be sent to replace ones undelivered through failure to notify Elsevier Science Publishing Co., Inc., of change of address. The journal is printed on acid-free paper.

Change of address: Please notify Elsevier Science Publishing Co., Inc., 60 days in advance.

Postmaster: send all address changes to GASTROENTEROLOGY, Elsevier Science Publishing Co., Inc., 655 Avenue of the Americas, New York, NY 10010.

Single copy, microfilm, and back volume information available from Elsevier Science Publishing Co., Inc., upon request.

Acid (cont'd)
exogenous
and gastric mucosal microcirculation in hemorrhagic shock (rat), 92:1958
and retransfusion in hemorrhagic shock-induced gastric lesions (rat), 94:1135
injury, repair of duodenal mucosa (rabbit), 92:1973
perfusion, and esophageal blood flow (cat), 90:622
peripheral, inhibitory action by corticotropin releasing factor (rat), 92:919
tolerance of duodenum, protection by alkaline secretion (rabbit), 92:709
Acid phosphatase, intestinal uptake (rat), 92:186
Acid secretion
by gallbladder in vivo (dog), 92:281
cephalic, gastric, and intestinal phases, peptide YY effects, 92:1202
cephalic phase, role of thought, sight, smell, and taste of food, 90:428
CNS actions of calcitonin gene-related peptide (rat), 88:539
corticotropin-releasing factor inhibition of (dog, rat), 86:281
in duodenal ulcer, bombesin and bethanechol effects, 92:1926
duodenal ulcers induced by indomethacin and histamine (rat), 90:636
epidermal growth factor effects (guinea pig), 88:1175
escape by continuous somatostatin infusion (rat), 86:861
gastric
aromatic amino acid interaction with secretagogues, 94:103
and bacterial colonization of stomach in severe malnutrition, 94:1308
brain peptide inhibition of (dog), 91:905
and *Campylobacter pylori* infection, 94:923, 95:1695-c
calcitonin gene-related peptides I and II and calcitonin effects, 95:958
cerebroventricular bombesin inhibition of (dog), 89:43
day-to-day variations, 94:887
dietary linoleic acid, and prostaglandin secretion, 94:955
endocrine cell hyperplasia after inhibition of (rat), 95:1477
ethanol and alcoholic beverage effects, 91:1390, 93:1247
in frog, 94:638
in rabbit, 91:439
fat-induced inhibition of, somatostatin role, 94:405
gastrin peptide effects, 94:96
and hypnosis, 91:1581-c
inhibition by calcitonin gene-related peptide (dog, rat), 87:344
omeprazole effects (rat), 92:716
and prostaglandin inhibition by indomethacin, 93:63
prostanoid inhibition of parietal cells (dog), 94:1121
somatostatin regulation (mouse), 94:317
and gastrin 17, lack of effect of 1-13 sequence, 89:49
gastrin effects, 92:944
inhibition
and regulatory peptides in stomach (rat), 90:970
by selective and nonselective anticholinergics, 86:361-pa
intestinal phase, with and without portacaval shunt, 89:791
ionizing radiation effects (monkey), 89:374
leukotriene effects (dog), 92:1209
linoleic acid effects on prostaglandin E_2 release (rat), 95:18
lithium chloride effects and mechanism of action (rat), 95:1454
and mucosal blood flow (rat), 95:642
and N-terminal tryptic fragment of big gastrin, 86:86
parietal cell stimulation state, and omeprazole inhibition (dog), 91:333
after parietal cell vagotomy, response to gastrin, 90:1001
pentagastrin sensitivity, in peptic ulcer, 86:843
and pepsinogen I and II, in occidental and oriental duodenal ulcer patients, 95:630
and pepsinogen release (guinea pig), 95:321
after portacaval shunt, 93:905-ss
in portal hypertension (rat), 95:727
with proximal gastric vagotomy and antrectomy, 87:1277
secretin-mediated inhibition, prostaglandin role (dog), 95:625
secretin test in achlorhydria-related hypergastrinemia, 93:59
and somatostatin antibodies (rat), 88:984, 92:1187
soy protein effects, comparison with beef meals, 95:920
stress effects (rat), 91:554
substrate-level energy dependence, gastric mucosa, 89:525
in systemic mastocytosis, 95:657
terbutaline effects, 95:913
total 24-hour, in duodenal ulcer patients, effects of cimetidine and parietal cell vagotomy, 90:540
TRH analogue RX 77368 sites of action (rat), 95:1470
and ultrastructural changes (rat), 91:667
in Zollinger–Ellison syndrome
combined medical and surgical treatment, 89:357
omeprazole treatment, 88:939
Acidification
of duodenal bulb, 94:1521-c
of gastric mucosa, subepithelial tissue pH (rat), 94:695
Acinar cells
and ductular cells, of pancreas, three-dimensional patterns, 90:661
pancreatic
function and morphology of, in zinc deficiency (rat), 90:946
stimulus-secretion coupling, 89:109
Acquired immunodeficiency syndrome (AIDS)
The Acquired Immune Deficiency Syndrome and Infections of Homosexual Men, 87:246-br
bile duct abnormalities, 92:2014
blood donor testing, 90:241-ss
Campylobacter pylori gastritis, 95:209
in children, hepatic morphology and immunocytology, 90:173
cytomegalovirus colitis, 88:171-cr
electron microscopy of intestine and rectum, 88:738
and enteric pathogens in homosexual men, 94:984
esophageal cryptosporidiosis in child, 91:1301-cr
esophagoscopy in, 92:838-c
gastrointestinal Kaposi's sarcoma, 89:102
and hemophilia A, orthotopic liver transplantation, 95:192-cr
in homosexual males, intestinal mucosal T-cell abnormalities, 90:552
ketoconazole-resistant *Candida* esophagitis, 90:443-cr
liver disease in, 90:1086-ss
Vibrio vulnificus infection after raw oyster ingestion, 92:796-cr
and terminal ileitis associated with *Mycobacterium avium-intracellulare* infection, 92:1127
See also Human immunodeficiency virus infection.
Active transport of carnitine, in intestinal biopsy specimens, 91:10
Activity front
ectopic, local induction by stomatostatin (dog), 87:1004
isoproterenol induction through somatostatin release (dog), 87:999
Addressins, vascular, lymphocyte homing, 95:1427-ss
Adenine arabinoside
and prednisolone treatment, chronic hepatitis B, 89:246
hepatic failure after, 92:274-c
Adenine arabinoside monophosphate, for chronic type B hepatitis, 86:150, 201-e
comparison with prednisone, 88:780
Adenocarcinoid mucinous carcinoid, of appendix, 86:302
Adenocarcinoma
in Barrett's esophagus
after elimination of gastroesophageal reflux, 86:356-cr
endoscopic biopsy, 94:81
flow cytometry and histology, 93:1
and gastric cardia, 86:461

overrated risk, 87:927
bile duct, secondary obstructive cholangitis, 90:745-cr
colonic, villin localization, 94:343
esophageal, and systemic sclerosis, patient screening, 89:485
exocrine pancreatic, somatostatin receptors, 95:760
gastric, β-endorphinlike and somatostatinlike immunoreactivity, 88:670
gastric cardia, endoscopic Nd:YAG laser therapy, 87:815, 974-e
of large bowel, epithelial cell proliferation, 94:899
pancreatic, and chronic pancreatitis, CA 19-9 antigen in differential diagnosis, 92:60
Adenomas
Adenomas and Adenomas Containing Carcinoma of the Large Bowel: Advances in Diagnosis and Therapy, 91:1033-br
colon, cell proliferation abnormalities in colonic mucosa, 92:704
colorectal
carcinomas in, 90:1311-c
endoscopic polypectomy, 89:328, 432-e
follow-up studies, 91:256-ss
Nd:YAG laser photocoagulation, 90:1865, 2023-e
hepatocellular, and high endogenous sex steroids, 93:1409
in large bowel, epithelial cell proliferation, 94:899
villous
of duodenum, 90:440-cr
in Gardner's syndrome, 92:532-cr
of rectum, endoscopic argon and Nd:YAG laser therapy, 89:832
Adenomatosis coli
familial, and fundic gland polypsis, 86:1437
and Gardner's syndrome, 89:1021
Adenosine monophosphate, cyclic, accumulation after partial hepatectomy, effects of fasting and iv glucose (rat), 87:639
Adenosine triphosphate, during hypothermic preservation of liver, glucose pretreatment (rat), 95:1043
***S*-Adenosyl-L-methionine**, bile flow modulation in estrogen-induced cholestasis, 87:239-ss
Adenovirus, and celiac disease, 88:1080-ss
Adenylate cyclase
gastric, ethanol effects (rabbit), 91:439
GTP-binding protein, prostanoid inhibition of parietal cells (dog), 94:1121
Adolescence
familial intrahepatic cholestatic cirrhosis, 89:202-cr
perianal disease with Crohn's disease, 86:829
Adrenalectomy, gastric protection, 87:254-c
Adrenergic blockade, gut motor response to stress, 87:1104
Adrenoceptors
β_1 and β_2
inhibition of colon motility (rat), 90:400
pindolol binding of, control of colon motility (rat), 90:408
and capsaicin reduction of ileus (rat), 91:360
in hepatocellular carcinoma and liver, 90:802-c
Adrenocorticotropic hormone (ACTH), and stress-induced changes in intestinal transit (rat), 94:611
Agglutinins
marker for mucosal dysplasia in ulcerative colitis, 93:1346
of *Ulex europeus*, binding by premalignant colonic mucosa (rat), 92:1
Aging
The Aging Gut: Pathophysiology, Diagnosis and Management, 89:1445-br
anorectal function with fecal impaction, 89:959
atrophic gastritis and vitamin B_6, 93:222-c
colonic proliferation (rat), 95:1556
delayed enzyme expression in small intestine (rat), 89:1026
difluoromethyl ornithine effect on small intestine (rat), 94:849-ss
folacin absorption, 89:691-ss
Gastrointestinal Disorders of the Elderly, 88:2012-br
Gastrointestinal Tract Disorders in the Elderly, 88:2012-br
and hepatitis B virus in hepatocellular carcinoma in blacks, 94:439
and hepatobiliary transport of dimeric IgA (rat), 88:436
idiopathic "senile" chronic pancreatitis and pancreatic lithiasis, 87:253-c
IgA binding to hepatocytes, 89:919-ss
IgA receptor of small intestinal enterocytes (rat), 94:143
intestinal enzyme adaptation to nutritional intake (rat), 93:295
pancreatic lithiasis, 86:331
Pharmacological, Morphological and Physiological Aspects of Liver Aging, 88:594-br
proliferation in small intestine, 95:1146-ss
xylose testing, 95:223-ra
Agnogenic myeloid metaplasia, with portal hypertension and sinusoidal abnormalities, 92:1067-cr
Airway response, after tracheal or esophageal acidification (cat), 87:872
ALA synthase, induction in liver cirrhosis, 86:1631-c
Alanine aminotransferase and aspartate, serum ratio in chronic hepatitis, 95:734
Albumin
binding with hepatitis B surface antigen, 90:2030-ss
human and chimpanzee, receptor coded by pre-S region of hepatitis B virus DNA, 86:910
intestinal clearance, ethanol-induced mucosal injury (dog), 87:562
in liver uptake, 92:1097-c
paracentesis with, in cirrhosis, 94:1493
polymerized, uptake and metabolism by liver, role of scavenger receptor (rat), 94:443
regulatory role, hepatocellular heterogeneity, 95:1130-ra
Alcohol
and gastric acid secretion and gastrin release, 93:1247
gastric lesions, prostaglandin cytoprotection, histologic and microcirculatory changes (rat), 87:1083
hemorrhagic gastritis, 94:1254
and hepatic androgen receptors (rat), 93:1162
and pancreatic cancer, 87:744-c
and plasma CCK (rat), zp542
withdrawal, liver hypermetabolism, 94:1047
Alcohol dehydrogenase
in fat-storing liver cells (rat), 94:163
in hepatocytes, glucagon effects (rat), 91:1271
Alcoholic liver disease
ethanol and hyperplastic nodule development, 93:256
in nonalcoholics, 95:1056
Alcoholism
cessation of use in alcoholic pancreatitis, 95:1063
chronic, mitochondrial aspartate aminotransferase as marker, 92:830-ss
esophageal
manometry and radionuclide emptying, 92:651
motility, 93:1150-c
and exocrine pancreatic insufficiency, nonpancreatic lipolytic activity, 92:125
and fasting, first-pass metabolism of ethanol, 92:1169
in gallstone disease, 87:979-ss
hepatic lipocyte transformation to transitional cells (baboon), 87:188
increased intestinal absorption, 87:443-ss
Medical Disorders of Alcoholism. Pathogenesis and Treatment, 86:212-br
and pancreatitis, renal tubule reclamation of low molecular weight proteins, 92:161
Recent Developments in Alcoholism, Volume 2, 87:983-br
serum 2,3-butanediol during acute intoxication, 86:372-ss

Aldosterone
chronobiology of secretion, in cirrhosis, 91:683
in colonic potassium adaptation (rat), 88:41
regulation of sodium and chloride transport in distal colon (rat), 91:1227
and renin axis, diuretic treatment in liver cirrhosis, 87:1405-c
Algorithms, *Decision Making in Gastroenterology*, 91:258-br
Alkaline phosphatase
and colonic brush border membrane isolation, 92:2042-ss
immunoreactive, distribution in ileum (rat), 87:827
intestinal
in chronic renal failure, 94:62
hepatic, and placental, ontogeny and phylogeny of (birds, fish, guinea pig, reptiles), 91:277
normal values, in primary sclerosing cholangitis, 95:1395
release in liver, ethanol effects, 88:1799
Alkaline secretion
duodenal
cysteamine and propionitrile inhibition of (rat), 88:295
E-type prostaglandin regulation of (frog), 88:290
mucosa, stimulation by β-endorphin and enkephalins (rat), 90:368
protection against acid injury (rabbit), 92:709
stress effects (rat), 91:554
ulceration induced by mepirizole (rat), 87:396, 438-e
leukotriene effects (dog), 92:1209
opiate effects, in gastric and duodenal mucosa (frog), 90:323
Allergy
Food Allergy, 86:1626-br
Immunopathologie de l'Allergie Alimentaire et Fausses Allergies Alimentaires, 86:1626-br
Allopurinol
and hepatic injury (rat), 89:1114
and oxygen-derived free radicals in hemorrhagic pancreatitis (mouse), 93:41
Allopurinol hypersensitivity syndrome, and hepatic fibrin-ring granulomas, 90:188-cr
Aluminum hydroxide, in sucralfate, protection in esophageal acid injury (rabbit), 93:352
American Board of Internal Medicine, procedural skills of gastroenterologists, 92:254-e
American Gastroenterological Association
A Time for Change. The Presidential Address, 95:1441
The AGA and Changing Gastroenterology: Architects or Pawns? The Presidential Address, 88:387
The AGA Rounds Ninety and Heads for One Hundred. The Presidential Address, 93:1155
Changes in Gastroenterology 1960–1985: Lessons from the Past and Implications for the Future. The Presidential Address, 89:933
Friedenwald Presentation
to Frank Pickering Brooks, 95:1447
to Robert M. Donaldson, Jr., 93:1159
to Kurt J. Isselbacher, 89:1221
to Henry David Janowitz, 87:749
to Fred Kern, 92:563
The Future of Digestive Diseases Research: Is There Cause for Concern? The Presidential Address, 91:797
list of available training programs, 87:452; 89:453; 91:495; 93:405, 671; 95:543
membership poll, 90:482
Our President
John M. Dietschy, 94:1249
Norton J. Greenberger, 87:485
Thomas R. Hendrix, 86:597
Douglas B. McGill, 91:273
Jerry S. Trier, 90:1
survey of patients with functional gastrointestinal disease, 92:1283-c
training and third-tier certification, 94:1083
American Motility Society, meeting program, 91:1041; 95:853
Amiloride, and ion transport in colon, 93:441
Amine trapping, inhibitory effect of gastric acidity on gastrin release (dog, rat), 90:1223
Amino acids
aromatic, interactions with gastric secretagogues, 94:103
and bile acid deconjugation by pancreatic carboxypeptidase, 90:306
branched chain, treatment for latent portosystemic encephalopathy, 88:887
decrease in plasma levels, after secretin and pancreozymin, indicator of exocrine pancreatic function, 90:1031
dipeptide source, for total parenteral nutrition (baboon), 86:1562
jejunal
absorption (rat), 95:63
nonspecific uptake (rat), 91:49
***p*-Aminobenzoic acid (PABA) test**, *N*-benzoyl-tyrosyl-, reversibility of chronic pancreatic failure, 91:17
γ-Aminobutyric acid (GABA)
and benzodiazepine receptor complex antagonism, in hepatic encephalopathy (rabbit), 93:1069, 1132-e
enteric neurons, and colon motility (cat), 93:519
and gastrin and somatostatin release from antrum (rat), 91:1221
ligands, central action on water and electrolyte absorption in ileum (rat), 88:523
liver uptake and catabolism of (rat), 95:402
receptor binding, thioacetamide-induced hepatic encephalopathy (rat), 93:1062, 1132-e
in small and large intestine, role of food intake and intestinal flora (normal and germ-free rat), 93:472
Aminooligopeptidase, synthesis and intracellular processing by human intestine, 94:1426
Aminopyrine, *N*-demethylation, in liver cirrhosis (rat), 93:719
5-Aminosalicylic acid
and colonic epithelial cell loss and proliferative activity (rat), 92:1998
comparison with azodisalicylate effects on electrolyte transport in ileum and colon (rabbit), 95:975
delayed release, and sulfasalazine, in ulcerative colitis, 94:1383
enemas
in distal colitis, 95:1698-c
and proctosigmoiditis and proctitis, 92:1894
in left-sided ulcerative colitis, 94:1075
for inflammatory bowel disease, 87:480-c; 89:701-c
and ischemia/reperfusion-induced gastric bleeding (rat), 94:733
mechanism of action in inflammatory bowel disease, interaction with oxygen free radicals, 89:1215-c
and sulfasalazine, comparison in ulcerative colitis, 95:1449, 1677
topical rectal treatment in ulcerative colitis, effects of prostaglandin E_2 and leukotriene B_4, 91:837
Aminotransferases
in non-A, non-B posttransfusion hepatitis, 88:1251
serum and liver levels, and pyridoxal 5′-phosphate deficiency in alcoholic hepatitis, 86:632
Amiodarone
clinical and morphological effects on liver, 88:1091-c
and hepatic phospholipidosis and fibrosis, 86:926
and lysosomal inclusions in hepatocyte cultures, 92:272-c
Amitriptyline, and cholestasis, 94:200-cr
Ammonia
plasma levels in hepatic cirrhosis, role of glucagon, 88:750
removal, hepatocellular heterogeneity, 95:1130-ra
Amniotic fluid, epidermal growth factor in, 95:1436-c
Amoxicillin, *Campylobacter*-associated antral gastritis, 94:33
Ampicillin, and colonic fermentation of carbohydrate, 94:928

Amylase
gastrointestinal and metabolic effects of inhibition in diabetes, 94:387
intraluminal, inhibition effects on starch digestion and postprandial gastrointestinal function, 91:41
pancreatic
inhibition by glucose (rat), 87:1305
neurotensin stimulation of (rat), 92:699
salivary, protection in digestion, 95:1422-ss
white bean inhibitor, starch digestion in vitro, inactivation of intraduodenal amylase in humans, 88:1895
Amyloidosis
AA type, and chronic ulcerative colitis, 95:810-cr
renal, in ulcerative colitis, colchicine therapy, 94:1503
Anal canal
Anorectal Presacral and Sacral Tumors, 92:2046-br
in severe idiopathic chronic constipation, 90:414
Anaphylaxis
immunological reactions of intestinal epithelium (rat), 94:1368
intestinal
and gut function (rat), 86:391
mast cell protease release and mucosal ultrastructure (rat), 94:1
Anastomosis, Roux-en-Y, nausea, vomiting, and abdominal pain after, motility of jejunal limb, 88:101
Anatomy
Color Atlas of Anatomy: a Photographic Study of the Human Body, 95:1154-br
countercurrent mechanisms in gastrointestinal tract, 91:225-pa
Dissection Manual: Companion to Rohen/Yokochi/Hall-Craggs Color Atlas of Anatomy, 95:1154-br
Sobotta Atlas of Human Anatomy. Volume 2: Thorax, Abdomen, Pelvis, Lower Extremities, Skin, 86:376-br
Androgens
abnormal secretion, liver adenoma and focal nodular hyperplasia, 93:1409
hepatic receptors
alcohol effects (rat), 93:1162
circadian rhythm (rat), 91:182
and liver tumor development (rat), 94:1193
spironolactone and potassium canrenoate effects (rat), 93:681
16α-hydroxylation, hepatic microsomes in cirrhosis (rat), 93:141
Anemia
giant lymph node hyperplasia (Castleman's disease), of mesentery, 87:216-cr
iron deficiency
gastric antral vascular ectasia, watermelon stomach, 87:1165-cr
and gastrointestinal bleeding, in female runner, 92:2019-cr
juvenile pernicious, intrinsic factor in parietal cells, 88:1132
and linear gastric erosion, 91:338, 481-e
pernicious
and autoimmune gastritis induced by neonatal thymectomy (mouse), 94:274
gastric endocrine cell hyperplasia and carcinoid tumors, 88:638
and pseudo-Zollinger–Ellison syndrome, 92:508-cr
with zinc therapy, 95:849-c
Aneuploidy, flow cytometry of gastrointestinal DNA, 93:197-e
Aneurysm
of intrahepatic branch of portal vein, 86:169-cr
splenic artery, recurrent hemorrhage into pancreatic duct, 87:417-cr
thoracoabdominal, marked hepatic congestion, 87:1367-cr
Angelchick prosthesis, for gastroesophageal reflux, 86:580-ss
Anger, and colon motor and myoelectric activity in irritable bowel syndrome, 94:1150
Angiodysplasia
association with aortic stenosis and gastrointestinal bleeding, 95:1670
of colon, specimen angiography in, 91:725-cr
Angioedema, hereditary, abdominal pain in multiple family members, 93:1116-cr
Angiography
celiac and superior mesenteric, formation of hilar collaterals or cavernous transformation after portal vein obstruction by hepatocellular carcinoma, 87:1150
specimen, in angiodysplasia of colon, 91:925-cr
in Zollinger–Ellison syndrome, 92:913
Angioplasty
percutaneous transhepatic, for portal vein obstruction, 88:176-cr
percutaneous transluminal, for acute mesenteric ischemia, 91:475-cr
Angiosarcoma, in von Recklinghausen's disease, 92:234-cr
Angiotensin-converting enzyme, intestinal brush border, inhibition by ramipril, 94:942
Anions
organic, hepatobiliary excretion of, defective canalicular transport and uridine 5′-diphosphate glucuronyltransferase deficiency (rat), 93:1094
selective channels in colonic plasma membranes (rat), 94:1235-ss
Anisakiasis
invasive, case report from Hawaii, 90:1047-cr
parasite infections, in California, 86:368-ss
Anorectum
defecation impairment in women with severe constipation, 90:53
ergotism, solitary rectal ulcers, 91:1123
manometry for fecal incontinence, 91:1186
Anorexia nervosa
cisapride effects on gastric emptying and antral contraction amplitude, 92:1000
esophageal motility disorders, 92:2039-ss
gastric electromechanical and neurohormonal function, 93:958
Handbook of Psychotherapy for Anorexia Nervosa and Bulimia, 92:552-br
Holy Anorexia, 92:266-br
Antacids
Antacids and Other Drugs in GI Diseases, 89:924-br
in *Campylobacter pylori* gastritis, nonulcer dyspepsia and erosive prepyloric changes, 95:619
or cimetidine for duodenal ulcer, 95:1465
and duodenal ulcer healing, 90:2027-ss
and fiber diet, gastric ulcer healing, 91:56
and hypergastrinemia, 91:788-c
cimetidine effects, 90:48
and phosphate deprivation, gender differences (rat), 89:313
Antibacterial activity of pancreatic fluid, 88:927
Antibiotics
depression of evoked and spontaneous responses of distal colonic muscularis mucosae (opossum), 88:964
in Whipple's disease, 88:1867
Antibodies
anti-hepatitis B, 87:736-ss
to anti-liver/kidney microsome$_1$, in chronic active hepatitis, cytochrome P-450, 95:1326
to antigens of enteric bacterial pathogens, in active Crohn's disease, 87:888
antigliadin, specificity in celiac disease, 89:1, 214-e
antiidiotype, HBV vaccines without HBsAg, 91:1027-ss
against cholera toxin; and biliary secretion by liver (rat), 93:539
to cow's milk proteins, in ulcerative colitis and Crohn's disease, 92:479
delta, in acute and chronic hepatitis B, 89:1230
food-induced IgA and IgG, cholecystokinin effects in intestine (rat), 93:1242, 1431-e
hepatitis B e
chronic hepatitis in HBsAg carriers, 90:1268

Antibodies (cont'd)
correlation with hepatitis B virus DNA, 89:1104
hepatitis B surface antigen, in dogs in Taiwan, 86:1001-c
hepatitis B virus, 92:262-ss
hepatitis B virus-associated delta agent in immune serum globulins, 87:1213
human rotavirus, in cow's milk, 89:695
IgA, against hepatitis B core antigen in acute and chronic infection with hepatitis B virus, 89:1109
IgA-class reticulin, screening test for celiac disease, 89:217-ss
immunoglobulin M, to hepatitis B core antigen, in chronic type B hepatitis, 89:252
low molecular weight IgM, to hepatitis B core antigen, 91:168
differentiation of acute and persistent hepatitis B virus infection, 87:159
monoclonal
colonic glycoconjugates in inflammatory bowel disease, 95:379
against colonic mucosal antigens in inflammatory bowel disease, 95:1302
cytomegalovirus hepatitis, 86:346-cr
gastric proton pump, 90:532
to glycoproteins in ulcerative colitis, 95:371
of hepatitis B virus, 90:1085-ss
against human uridine 5′-diphosphate-glucuronosyltransferase (mouse), 93:162
immune responses to rotavirus vaccination, 93:941
N-terminally and C-terminally directed, against pancreatic glucagon, 89:571
NF2F11, in severe long-standing constipation, 93:872
pepsinogen I characterization, 92:143
against progastrin, bombesin effects in antral tissue culture (rat), 93:322
to somatostatin, and gastric acid secretion (rat), 92:1187
against tumor-associated and/or differentiation antigens, in ulcerative colitis, 95:686
to mycobacterial antigens in active Crohn's disease, 94:1404
neutralizing, to hepatitis A virus, in immune serum globulin recipients, 89:637
prostaglandin E_2, and gastrointestinal ulcer formation (rabbit), 93:744
prostaglandin, in peptic ulcer disease, 91:71
somatostatin, effect on acid secretion and gastrin release by stomach (rat), 88:984
against synaptophysin, chromogranin A, secretogranin I and II, in gastroenteropancreatic neuroendocrine cells, 95:1364
Antidiuretic hormone hypersecretion, and water excretion, temporal relationship in cirrhosis (rat), 93:498
Antiepileptic drugs, trimethadione dissolution of pancreatic stones (dog), 93:1002
Antigens
and antibody, hepatitis B surface, in chronic and acute hepatitis B, 93:675, 899-e
CA 19-9
in cirrhosis, role of hepatic dysfunction and bilirubin, 92:270-c
and carcinoembryonic, detection assays in pancreatic cancer, 90:343, 491-e
in pancreatic adenocarcinoma and chronic pancreatitis, 92:60
Campylobacter jejuni, intestinal IgA response to, 90:1217
carcinoembryonic
during colonic epithelial cell differentiation, in colon carcinoma, 93:1330
evaluation before second-look surgery, 95:837-ss
mucosal dysplasia in ulcerative colitis, 93:1346
cell-surface, on colonic cancer cells (rat), 94:331
colonic mucosal, in inflammatory bowel disease, 95:1302
colonization factor (CFA/I, CFA/II), to enterotoxigenic *Escherichia coli*, 87:934
hepatitis B e
from hepatitis B core antigen, 94:243-ss
and hepatitis B virus DNA in corticosteroid-treated severe chronic active hepatitis B, 93:1225
seroconversion and reversion in chronic hepatitis B virus infection, 92:1839
viral DNA in liver of chronic carriers, 93:1236
hepatitis B surface
and core, in chronic hepatitis B virus infection, 92:215
core, and e, in nude mice with human primary hepatocellular carcinoma, 90:135
polypeptides of Dane particles, polyalbumin receptors, 90:695
hepatitis B virus, in chronic liver disease, 92:192
HLA-DR
colonic epithelial cells in inflammatory bowel disease, 93:208-ss
on enterocytes in children with celiac disease, 91:1206
liver, in primary biliary cirrhosis, 88:1081-ss
nuclear, in autoimmune chronic active hepatitis, 92:304
on small intestinal epithelial cells, 93:906-ss
ribonucleoprotein Ro in immune complexes, in primary biliary cirrhosis, 90:724
T9 and HLA-DR, on peripheral lymphocytes, and severity of Crohn's disease, 88:978
tissue specific, vascular addressins, lymphocyte homing, 95:1427-ss
tumor-associated and/or differentiation, in ulcerative colitis, 95:686
viral surface, and pre-S encoded proteins, in acute hepatitis B virus infection, 92:1864
Antioxidants
albumin-bound bilirubin, 94:851-ss
bilirubin function, 93:1443-ss
Antipyrine
clearance, taurolithocholate effect (rat), 88:397
oxidative metabolism in malnutrition, parenteral refeeding, 89:241
Antisecretory component, degradative intracellular transport of, in cultured hepatocytes, IgA receptor pathway, 88:1791
Antispasmodics, for irritable bowel syndrome, 95:232
Antithrombin III metabolism, colitis patients with acquired antithrombin III deficiency, 89:421-cr
α_1-Antitrypsin
deficiency PiM_1/PiM_{duarte}, and fatal liver disease, 93:242
fecal levels, in Crohn's disease, 89:13
in nondried stools, 92:542-ss
Mmalton variant, hepatocellular dysplasia and carcinoma associated with, 93:181-cr
Antrectomy
gastrin and enterochromaffinlike cell activation, omeprazole and ranitidine effects (rat), 90:391
and vagotomy, fat absorption (dog), 94:50
Antrum
cholecystokinin-octapeptide actions (guinea pig), 92:376
gastrin levels, in obese (ob/ob) mouse, 88:945
thyrotropin-releasing hormone effects (guinea pig), 88:1126
Anus
cancer in women, 95:107
cavitating ulcers, pyoderma gangrenosum, 95:1158-c
incontinence, biofeedback management, 93:291
internal sphincter
loperamide effects (opossum), 93:121
in neurogenic fecal incontinence, 95:997
relaxation with VIP (rabbit), 89:867
longitudinal and radial variations of sphincter pressure, 86:693
motility, in idiopathic constipation, 95:1388

pain in Crohn's disease, methylprednisolone injections, 94:709
Pathology of the Colon, Small Intestine, and Anus, 86:1625-br
sphincter, functional abnormalities, in myotonic dystrophy, 86:1469
Anxiety, and essential dyspepsia, 90:886
Aortic stenosis, and idiopathic gastrointestinal bleeding and angiodysplasia, literature evaluation, 95:1670
Aphthous ulceration, in diversion colitis, 87:1171-cr
Apolipoproteins
A-IV serum levels, and total parenteral nutrition, 95:394
B, biliary excretion of by liver (rat), 92:1236
C-III, in hypertriglyceridemia, 89:1203-ss
Apomorphine
and dopamine-induced relaxation of lower esophageal sphincter (opossum), 91:533
nausea induced by, vasopressin and pancreatic polypeptide release, 95:721
Apoprotein B, intestinal, in chylomicron retention disease, 92:390
Appendicitis, acute
and diesel fuel, 93:1146-c
high-resolution sonography, 94:540-ss
Appendix
abscess in cystic fibrosis, 86:564-cr
adenocarcinoid (mucinous carcinoid), 86:302
nonoperative treatment, 93:1439-ss
three-dimensional organization of lymphatics (rabbit), 91:947
vermiform, intestinal spirochetosis of, 88:971
Arachidonic acid
in biliary sludge, 95:508-ra
metabolism in acetic acid colitis, similarity to human inflammatory bowel disease (rat), 88:55
metabolites, role in inflammatory bowel disease, additional pathway, 88:580-pa
renal and platelet metabolism in cirrhosis, 90:274
Arbaprostil, cytoprotective failure, acute duodenal ulcers, 92:604
Arctic trichinosis, prolonged diarrhea, 91:938
Arteries
fibromuscular dysplasia, in Hirschsprung's disease, 88:1099, 1274-e
hepatic
embolization for improvement of metastatic glucagonoma, 87:481-c
infusion chemotherapy in colorectal cancer, 87:1400-ss
and pancreatico-duodenal, neuroeffector transmission (dog), 87:1056
superior mesenteric, occlusion of, role of collateral circulation (cat), 92:1215
Ascariasis, biliary
diagnosis and treatment of, 91:730-cr
and pancreatic, endemic area of India, 88:418
Ascites
absence of in hepatic hydrothorax, 88:188-cr
in chronic alcoholic liver disease, furosemide pharmacokinetics, 92:294
from chronic liver disease
diuresis in, importance of peripheral edema, 90:1827, 2022-e
furosemide effects on renal hemodynamics, 92:1859
chylous, and esophageal sclerotherapy, 94:1109-c
and cirrhosis
atrial natriuretic factor after peritoneovenous shunt implantation, 95:764
intrarenal thromboxane A_2 effects on sodium and water diuresis, 95:1081
OKY 046 effects on renal function, 94:1470
paracentesis or diuretic treatment, 93:234, 386-e
prognostic value of arterial pressure, vasoactive systems, and renal function, 94:482
therapeutic paracentesis, 94:1493
with and without functional renal failure, atrial natriuretic factor effects, 95:1641
cirrhotic versus malignant, shunting for, 90:792-ss
fluid culture technique, 95:1351
fluid pH, detection of infection, 88:590-ss
in hepatic cirrhosis, linear discriminant analysis, 92:558-c
malignant
and nonmalignant, fibronectin concentrations, 87:1160; 94:556-c
shunting of, 88:1286-ss
refractory hepatic, renal prostaglandin E_2, response to peritoneovenous shunting, 95:1332
sulindac and ibuprofen effects, 90:182
tense
paracentesis versus diuretics, 95:257-c
treatment of, 94:552-c
Ascitic fluid
bacterial infection, polymorphonuclear leukocyte count, pH, and lactate concentration, 90:1247, 1295-e
low protein, and spontaneous bacterial peritonitis, 91:134
pH, in cirrhotic and noncirrhotic patients, 90:1255, 1295-e
protein concentration, and spontaneous bacterial peritonitis, 93:915-c
Asialoglycoprotein receptor
cellular distribution in liver (rat), 86:142
in cirrhosis and liver cell carcinoma, 87:1217
in hepatocytes, ultrastructural immunocytochemical localization (rat), 87:763
IgA binding and uptake by liver, 94:762
Aspartame, intestinal hydrolysis of metabolic products, 91:931
Aspartate aminotransferase
and alanine aminotransferase, serum ratio in chronic hepatitis, 95:734
mitochondrial, as marker of chronic alcoholism, 92:830-ss
Aspartic proteinases, in gastric mucosa, absence of pepsinogen I (rat), 95:295
Aspartylphenylalanine, intestinal hydrolysis of, 91:931
Aspirin
and amphibian gastric mucosa, 90:559
antral and duodenal damage, enprostil protection, 88:382
and aspirin-acetaminophen combination, effects on normal gastric mucosa, 88:1922
and cell membrane potentials, intracellular microelectrode studies of antral mucosa (Necturus), 88:261
colonic epithelial proliferation, prostaglandin E_2 effect (rat), 89:1054
and colonic mucosal proliferation (rat), 94:567
continuous administration, gastric adaptation, 95:327
damage to gastric mucosa, protection by acetaminophen, 86:728
gastric mucosal injury, circadian variations (rat), 91:1192
and gastric mucosal injury, prevention by prostaglandin E_2, 86:339
and hydrochloric acid, effect on gastric mucosal microcirculation (rat), 93:810
injury to gastric mucosa, protection by bicarbonate, 89:767
and ion flux across gastric mucosa, 86:60
in occult blood screening for colorectal carcinoma, 88:820-pa
or sodium salicylate, parenteral, and gastric mucosal injury (rat), 93:863
and tight junction structure of gastric mucosa (dog), 91:351
Atherosclerosis, *Bile Acids and Atherosclerosis. Atherosclerosis Reviews*, 92:1280-br
ATP analogs, relaxant neurotransmitter in tenia coli (guinea pig), 89:36
ATPase, Na^+,K^+
in liver cell plasma membrane, 86:1632-c
localization on hepatocyte plasma membrane, 87:1206-c
Atrial natriuretic factor
in cirrhosis with ascites

Atrial natriuretic factor (cont'd)
effect of peritoneovenous shunt implantation, 95:764
with and without functional renal failure, 95:1641
and LeVeen shunt, 95:250-ss
Atropine
and ileal motility and transit, 89:562
and pancreatic exocrine and endocrine function (rat), 89:408
and pancreatic secretory response to secretin before and after cutting extrinsic nerves (dog), 90:355
and regulation of gastrin and somatostatin secretion (rat), 87:557

Pyogenic liver abscess complicating common bile duct stenosis secondary to chronic calcific pancreatitis, 86:953
Radiation-induced intestinal pseudoobstruction, 91:994
Recurrent abdominal pain as sole manifestation of hereditary angioedema in multiple family members, 93:1116
Recurrent hemorrhage into pancreatic duct from splenic artery aneurysm, 87:417
Recurrent villous adenoma of duodenum, 90:440
Relapsing pancreatitis with duodenal wall cysts, 88:814
Resolution of amyloidosis (AA type) complicating chronic ulcerative colitis, 95:810
Resolution of diffuse granulomatous fibrosis of liver with antituberculous chemotherapy, 91:456
Response to steroids in Budd–Chiari syndrome caused by idiopathic granulomatous venulitis, 94:503
Restoration of portal venous perfusion and reversal of encephalopathy, balloon occlusion of portal systemic shunt, 87:208
Reversal of dementia associated with Whipple's disease by trimethoprim-sulfamethoxazole, 86:745
Rupture of stomach after hemorrhage from gastric ulcer, 91:212
Sarcoidlike granulomas as early manifestation of Whipple's disease, 87:941
Self-limited cytomegalovirus colitis in immunocompetent individuals, 94:194
Small bowel malignant lymphoma complicating celiac sprue and mesenteric lymph node cavitation syndrome, 90:2008
Somatostatin analogue treatment of metastatic VIPoma, 88:185
Spontaneous bacterial peritonitis caused by *Neisseria gonorrhoeae*. Evidence for transfallopian route of infection, 88:804
Spontaneous bacterial peritonitis due to *Campylobacter coli*, 92:2024
Spontaneous intrahepatic arterioportal fistula, rapid sequential computed tomographic scan, 88:564
Spontaneous portal-hepatic venous shunt via intrahepatic portal vein aneurysm, 86:945
Spontaneous *Yersinia enterocolitica* peritonitis in idiopathic hemochromatosis, 87:1372
Successful endoscopic transection of partially obstructing antral diaphragm, 89:1147
Successful treatment of atypical sprue in infant with cyclosporine, 95:199
Successful treatment of hepatic venoocclusive disease in bone marrow transplant patient with side-to-side portacaval shunt, 92:1073
Successful treatment of idiopathic secretory diarrhea of infancy with somatostatin analogue SMS 201-995, 94:189
Successful treatment of nonhealing biliary-cutaneous fistulas with biliary stents, 90:764
Systemic absorption of oral cholestyramine, 87:213
Total colonic aganglionosis initially diagnosed in an adolescent, 87:1364
Toxic megacolon associated with methotrexate therapy, 86:1583
Tracheoesophageal fistula: A serious complication of infectious esophagitis, 87:1174
Transformation of inferior vena caval thrombosis to membranous obstruction in a patient with the lupus anticoagulant, 91:219
Treatment of acute mesenteric ischemia by percutaneous transluminal angioplasty, 91:475
Treatment of chronic secretory diarrhea of unknown origin by lithium carbonate, 87:714
Treatment of postoperative bile fistulas by internal endoscopic biliary drainage, 90:1998
Tularemic hepatitis presenting as obstructive jaundice, 91:461
Ultrasonography and computed tomography in focal fatty liver. Report of two cases with emphasis on changing appearances over time, 87:948
Unusual presentation of Wegener's granulomatosis mimicking inflammatory bowel disease, 87:426
Utility of specimen angiography in angiodysplasia of colon, 91:725
Vibrio vulnificus infection after raw oyster ingestion in patient with liver disease and acquired immune deficiency syndrome-related complex, 92:796
Villous adenoma of duodenal papilla presenting as necrotizing pancreatitis in patient with Gardner's syndrome, 92:532
VIP release in short-term culture of VIP-producing tumor, 94:513
Vitamin D metabolism and osteomalacia in cystic fibrosis, 88:808
Watery diarrhea-hypokalemia-achlorhydria syndrome, and carcinoma of esophagus, 88:798
Whipple's disease with unusual clinical, bacteriologic, and immunologic findings, 90:1286
Zinc-induced copper deficiency, 94:508
Zollinger–Ellison syndrome. Cure by surgical resection of jejunal gastrinoma containing growth hormone releasing factor, 92:814
Castleman's disease, giant lymph node hyperplasia of mesentery, associated anemia, 87:216-cr
Cat scratch disease, with hepatic lesions, 89:1400-cr
Catalase, and oxygen-derived free radicals in hemorrhagic pancreatitis (mouse), 93:41
Catheters, foreign body management in upper gastrointestinal tract, 94:204-ra

Cecum
ion transport in, 92:501
noradrenaline supersensitivity, in diabetes (rat), 94:1357

Gc (vitamin D-binding protein) complexes, in fulminant hepatic necrosis, 94:1454
glucose
absorption in jejunum, in cystic fibrosis, 88:478
modulation of interdigestive gastric motility, 94:739
gluten supplementation in healthy siblings of children with celiac disease, 92:678

Clinical Studies (cont'd)
glycogen phosphorylase isoenzymes in carcinoma and intestinal metaplasia of stomach, 93:35
glycoproteins of colonic mucosa, in ulcerative colitis, 87:991
glycosaminoglycan components in liver cirrhosis, 89:1248
granulocytopenia from colchicine therapy for primary biliary cirrhosis, 93:1231
growth failure
in Crohn's disease, and intermittent elemental diet, 94:603
in hepatocellular carcinoma, 89:259
gut motor response to stress, effect of opiate and adrenergic blockers, 87:1104
height velocity in children and adolescents prior to diagnosis of Crohn's disease, 95:1523
hematochezia and urgent colonoscopy, 95:1569
hemodynamics
in acute pancreatitis, 90:74
after variceal hemorrhage, propranolol effects, 93:1218
hepatic
arterial embolization in unresectable hepatocellular carcinoma, 94:453
bile acid secretion, maintenance by bedtime administration, 95:1029
and bile porphyrins in protoporphyria and liver failure, 94:1488
cirrhosis, plasma ammonia levels, glucagon role, 88:750
cholestasis and fibrosis, in intestinal resection with prolonged parenteral nutrition, 92:197
cytochrome P_{450} levels in intrahepatic cholestasis, 92:299
estrogen receptor in liver disease, 92:735
export and peripheral protein synthesis, use of α-ketoisocaproate, in cirrhosis, 90:1834
handling of synthetic γ-labeled bile acid, 94:771
injury with ketoconazole therapy, 86:503
lesions in toxic oil syndrome, 93:558
sex steroid uptake in alcoholic cirrhosis, 92:203
subcapsular biloma, 94:1225
volume determination, comparison of sonography and computed tomography, 88:1812
hepatic vein thrombosis in paroxysmal nocturnal hemoglobinuria, 93:569
hepatitis
in children with AIDS, 90:173
in fatal infectious mononucleosis, 93:1210
hepatitis B
e antigen/antibody
correlation with hepatitis B virus DNA, 89:1104
seroconversion and reversion, in chronic hepatitis B virus infection, 92:1839
immune globulin
for infants of mothers with acute hepatitis during pregnancy, 89:160
prevention of perinatal transmission of hepatitis B virus, 87:293
surface antigen-positive hepatitis, 92:1844
surface antigens and antibody in acute and chronic hepatitis B, 93:675
virus DNA
during antigen clearance in corticosteroid-treated severe chronic active hepatitis B, 93:1225
in chronic persistent hepatitis treated with prednisone, 92:862
and liver antigens, in chronic liver disease, 92:192
virus infection in hemodialysis patients, 91:1357
virus and related viral infection in renal transplant recipients, 94:151
hepatobiliary scintigraphy and fatty meal sonography for partial common duct obstruction, 94:779
hepatocellular carcinoma
in blacks, age effects on etiology of hepatitis B virus, 94:439
in chronic type B hepatitis, 90:263
in idiopathic hemochromatosis after reversal of cirrhosis, 95:1399
in primary biliary cirrhosis, estimation of α-fetoprotein, 87:660
real-time ultrasonography, 86:495
smaller than 3 centimeters in cirrhosis, 90:289
hereditary
colorectal carcinoma, 93:1021
hemochromatosis, 88:865
hilar collaterals or cavernous transformation, after portal vein obstruction by hepatocellular carcinoma, 87:1150
histologic cirrhosis in corticosteroid-treated HBsAg-negative chronic active hepatitis, 87:1222
histopathologic differentiation of acute self-limited colitis and ulcerative colitis, 92:318
HLA-DR expression by enterocytes in children with celiac disease, 91:1206
hornet stings and Reye's syndrome, 89:1407
human chorionic gonadotropin in inflammatory and carcinomatous gastric tissue, 89:1319
hydatid disease, medical treatment, 86:990-ss
hyposplenism and gluten-sensitive enteropathy, relationship to diet and small bowel morphology, 87:1326
idiopathic chronic constipation, and colonic VIP, 94:300
idiopathic portal hypertension, comparison with cirrhosis with splenomegaly, 86:600
IgA
in alcoholic liver disease, 94:457
antibody against hepatitis B core antigen in acute and chronic infections with hepatitis B virus, 89:1109
secretion patterns by intestinal mononuclear cells in inflammatory bowel disease, 91:379
IgG-producing cells in ulcerative colitis and Crohn's disease, 93:919
IgM antibodies to hepatitis B core antigen
in chronic type B hepatitis, 89:252
differentiation of acute and persistent hepatitis B virus infection, 87:159
ileal
excretion of bile acids, ursodeoxycholic acid treatment, 94:1201
fat emulsions, and feeding and satiety, 89:1293
ileitis associated with *Mycobacterium avium-intracellulare* infection in homosexual men with AIDS, 92:1127
immune complexes
in autoimmune chronic active hepatitis, 92:304
clearance in primary sclerosing cholangitis, 88:166
indium 111
granulocyte scanning, inflammatory bowel disease, 90:1121
leukocyte imaging in Crohn's disease, 93:829
indomethacin
and chloroquine effects on fluid loss in cholera, 89:1035
and gastric acid and bicarbonate secretion, 87:1339
and gastric mucosal prostaglandins, 92:969
inflammatory cells of celiac sprue mucosa, 89:92
infrared spectroscopy of common bile duct gallstones, 94:1217
inlet patch, heterotropic gastric mucosa in upper esophagus, 89:352
innervation of pelvic flood musculature in chronic constipation, 89:977
insulin-glucose metabolism dose-response, in alcoholic cirrhosis, 87:1138
intensive intravenous treatment of ulcerative colitis, 89:1005, 1189-e
interdigestive
motility pattern variations, 91:386
in idiopathic delay of gastric emptying, 90:20
α-interferon treatment for chronic hepatitis B, 95:1318

interleukin-1 and -2 in chronic hepatitis B virus infection, 94:999
internal anal sphincter in neurogenic fecal incontinence, 95:997
interobserver variation in metastases detection on liver scan, 90:166
intestinal
gastric acid secretion, with and without portacaval shunt, 89:791
IgA response to *Campylobacter jejuni* antigens, 90:1217
mucosal T cells in homosexual men with lymphadenopathy syndrome and AIDS, 90:552
pseudoobstruction in children, 91:62
synthesis of apolipoprotein B-48 in abetalipoproteinemia, 93:1119
transit of solid and liquid components of meal, in health, 87:1255
intraduodenal amylase inactivation by white bean amylase inhibitor, 88:1895
intraesophageal pH monitoring in hospital setting, 89:797
intrahepatic and subcapsular hematomas after percutaneous liver biopsy, 92:290
Intralipid effect of gastrointestinal transit, ileal flow rate, and carbohydrate absorption after liquid meal ingestion, 88:1005
intrarenal thromboxane A_2 effects on sodium and water diuresis in cirrhosis with ascites, 95:1081
intestinal alkaline phosphatase, in chronic renal failure, 94:62
isosorbide dinitrate hemodynamics in alcoholic cirrhosis, 93:576
J-chain expression in immunoglobulin subclasses in inflammatory bowel disease, 94:1419
jejunal conduit graft in cervical esophagus, 90:1956
kinetics for ^{75}selenohomocholic acid-taurine, 95:164
γ-labeled bile acid as test of ileal function, 90:1129
laser endoscopic photoablation of rectosigmoid carcinoma, 92:663
leukocyte scintigraphy in Crohn's disease with technetium 99m-hexamethyl propylene amine oxine, 95:1287
levamisole therapy in chronic type B hepatitis, 91:692
lidamidine and loperamide effects on gastric emptying and transit in small intestine, 90:68
linear gastric erosion, association with diaphragmatic hernia and chronic anemia, 91:338, 481-e
liver
decompensation associated with hepatitis B e antigen clearance, 89:732
hypermetabolism during alcohol withdrawal, 94:1047
and prednisone and prenisolone metabolism, 90:819
transplantation effects on cholesterol metabolism in end-stage liver disease, 93:1170
transplantation into recipient larger than donor, 93:1414
low molecular weight IgM antibody, in chronic hepatitis B virus infection, 91:168
low protein ascitic fluid and spontaneous bacterial peritonitis, 91:1343
lower esophageal sphincter relaxations in reflux esophagitis, 95:593
magnesium effect on sodium transport in ileum, 89:1050
manometry
of functional upper gut symptoms, 88:1223
of varices in maintenance sclerotherapy, 93:846
marker of mucosal dysplasia in ulcerative colitis, 93:1346
meal
volume and energy density effects on gastric emptying of carbohydrates, 89:1326
and whole blood serotonin, 88:86
megamitochondria in alcoholic liver disease, 90:1858
metabolic bone disease
after jejunoileal bypass, prospective evaluation, 87:123
after partial gastrectomy with Billroth II anastomosis, 92:608
in primary biliary cirrhosis, 94:463
metabolism of sulfated and unsulfated heptadecapeptide gastrin, 92:1220
metenkephalin analogue effects on motility of gastrointestinal tract, 93:114
methane production and colon cancer, 87:601, 728-e
methylprednisolone for painful anal Crohn's disease, 94:709
metoclopramide treatment of nausea in advanced liver disease, 88:757
microscopic examination of gallbladder bile for gallstone recognition and identification, 95:1339
midgastric transverse band, 91:540
misoprostol and cimetidine effects on gastric cell kinetics, 89:57
molecular genetics of mucosal lymphocytes in inflammatory bowel disease, 95:364
morphine and atropine effects on ileal motility and transit, 89:562
motilin effects on water and ion transport in human jejunum, 87:550
motility
in chronic severe constipation, 92:414
of terminal ileum and ileocecal sphincter in healthy humans, 87:857
mucosal protective effects of misoprostol versus cimetidine in stomach and duodenum, 95:289
multiple primary malignant tumors, 93:779
mycobacteria in inflammatory bowel disease, 92:436
naloxone effect on feedback regulation of small bowel transit by fat, 87:335
natural killer cytotoxicity in primary biliary cirrhosis, 89:165
Nd-YAG laser photocoagulation in colorectal adenoma, 90:1865, 2022-e
nerve morphology in chronic pancreatitis, 94:1459
neuropeptide distribution in esophagus, 93:1363
neurotensin increase of colonic motility, 90:27
nifedipine
for noncardiac chest pain in nutcracker esophagus, 93:21
and sphincter of Oddi motor activity, in biliary dyskinesia, 95:1050
nitrofuran treatment for *Campylobacter pylori*-associated gastritis, 95:1178
non-A, non-B posttransfusion hepatitis, a decade later, 88:1251
nonpancreatic lipolytic activity in exocrine pancreatic insufficiency, 92:125
nonsteroidal antiinflammatory drug-induced intestinal inflammation, 93:480
nonulcer dyspepsia
Giardia lamblia role, 95:972
potential predictor variables, 92:1060
occult radiopaque jaw lesions in familial adenomatous polyposis coli and hereditary nonpolyposis colorectal cancer, 93:490
OKY 046 effects on renal function in nonazotemic cirrhotic patients with ascites, 94:1470
oleic acid effects on colonic motility and fluid tolerance, 91:100
olsalazine sodium treatment of ulcerative colitis, in sulfasalazine intolerance, 93:1255
omeprazole
versus cimetidine in duodenal ulcer healing and pain relief, 94:1130
kinetics, inhibition of gastric pH, 88:64
and serum gastrin and pepsinogen I levels, 87:1030
for Zollinger–Ellison syndrome, 88:939
opiates
and intestinal motor activity and transport, 90:85
receptors and colonic transit, 94:1351
ornithine decarboxylase in Barrett's esophagus, 94:819
oropharyngeal microflora and hydrogen breath tests, 91:853

Clinical Studies (cont'd)
orthotopic liver transplantation in children, effect of previous abdominal surgery, 90:853
oxidative drug metabolism, stimulation by parenteral refeeding, 89:241
pain tolerance in irritable bowel syndrome, 93:727
pancreas
calcification
in chronic pancreatitis, 95:1018
and exocrine insufficiency, 90:617
chloride and bicarbonate secretion in cystic fibrosis, 95:349
lithiasis in aged, 86:331
secretory response to ordinary meals, 94:428
pancreatitis
animal vs. human studies, 93:1420
chronic, course and outcome, 86:820
from 6-mercaptopurine treatment of inflammatory bowel disease, 91:982
and pseudocyst formation secondary to carcinoid tumor of pancreas, 94:1222
paracentesis
with and without albumin in cirrhosis, 94:1493
or diuretic treatment of cirrhosis with tense ascites, 93:234
paraneoplastic visceral neuropatl.y, and gastrointestinal motor dysfunction, 95:1279
parietal cell
function, effects of proximal gastric vagotomy and antrectomy, 87:1277
vagotomy, and acid secretory response to gastrin, 90:1001
pectin effects on gastric emptying and gastroduodenal motility, 92:486
and satiety in obese subjects, 95:1211
penicillamine in primary sclerosing cholangitis, 95:1036
pepsinogens as risk factors for duodenal and gastric ulcers, 90:570
peptic esophagitis healing and relapse after omeprazole treatment, 95:903
peptic ulcer
penetration of heart and pericardium, 94:1478
surgery, 94:688
peptide chain length, and jejunal absorption of egg protein hydrolysate, 92:136
peptide-containing nerve fibers in infantile hypertrophic pyloric stenosis, 92:443
peptide YY
and gastric, pancreatic, and biliary function, 89:494
in gastrointestinal diseases, 90:379
normal plasma levels, 87:1332
percutaneous endoscopic gastrostomy, 93:48
pericarditis from esophageal sclerotherapy, 93:287
peripheral neuropathy in Crohn's disease with metronidazole, 88:681
peristaltic dysfunction and esophageal volume clearance, 94:73
peristomal varices after proctocolectomy, in primary sclerosing cholangitis, 90:316
peritoneovenous shunt effects on body composition, 90:127
Peutz–Jeghers syndrome, 49-year follow-up survey, 95:1535
pH of microclimate lining gastric and duodenal mucosa, 92:1876
pH-metry in gastroesophageal reflux, 93:85
pirprofen-induced fulminant hepatitis, 89:210
plasma cysteine, cystine, and glutathione in cirrhosis, 87:770
platelet activating factor in ulcerative colitis, 95:1167
pleural effusions after endoscopic variceal sclerotherapy, 88:1910
porphyria cutanea tarda and HLA-linked hemochromatosis, 92:1833
portacaval shunt effects on drug disposition in cirrhosis, 91:163
portal hemodynamics
and gastric varices, 95:434
in idiopathic portal hypertension, 92:751
portal vascular resistance, in portal hypertension, 90:710
portal vein
hemodynamics in hepatocellular carcinoma, 93:591
thrombosis, 94:1063
portal-systemic and arteriovenous shunts in liver cirrhosis, 93:129

Gliadin
antibodies, in celiac disease, 89:1, 214-e
A-peptide toxicity, in celiac disease, 94:41
and swainsonine, enterocyte damage, model for celiac disease (rat), 95:100

Globulins
antibody to hepatitis B virus-associated delta agent, 87:1213
immune serum, neutralizing antibody to hepatitis A virus, 89:637

Glomerulonephritis, hepatitis B-associated, interferon treatment of proteinuria, 92:524-cr

Glucagon
and alcohol dehydrogenase in hepatocytes (rat), 91:1271
and ammonia levels in hepatic cirrhosis, 88:750
and gastric dysrhythmia (dog), 92:993
electrogastrography, 88:1932
hepatotrophic role (dog), 87:679
pancreatic, N-terminally and C-terminally directed monoclonal antibodies against, 89:571

Glucagonoma, metastatic, hepatic artery embolization, 87:481-c

Glucocorticoids
hydrocortisone effects on exocrine pancreas (rat), 93:1398
peptides, and sulfhydryls, in gastric mucosal defense, 87:228-e
suppression of collagen formation by hepatocytes (rat), 86:897

Glucose
absorption
jejunal
in cystic fibrosis, 88:478
prostaglandin E_2 effects (dog), 94:726
in small intestinal transplants (rat), 94:863, 1087-e
blood, and gastric emptying, 87:745-c
breath tests, in intestinal bacterial overgrowth, 91:1447
and hepatocellular hyperpolarization and cyclic AMP accumulation after partial hepatectomy (rat), 87:639
vs. infusion rate, absorption in small intestine (pig), 94:722
and insulin interactions on pancreatic exocrine secretion (rat), 87:1305
and intestinal calcium absorption, in diabetes (rat), 88:933
and lipid administration
protein kinetics (rat), 91:305

Glucose (cont'd)
varied ratios in total parenteral nutrition of critically ill patients, 87:53, 226-e
in liver preservation, ATP loss (rat), 95:1043
membrane transport after small bowel resection (rat), 92:1987
metabolism, and insulin concentrations, in alcoholic cirrhosis, 87:1138
modulator of interdigestive gastric motility, 94:739
and potassium in undernourished patients, 92:2040-ss
Glucuronidation
of bilirubin, in primate liver (monkey), 91:287
ursodeoxycholate, and sodium/hydrogen exchange (rat), 95:454
Glucuronides, *Advances in Glucuronide Conjugation. Falk Symposium 40*, 91:493-br
Glutathione
mitochondrial, and chronic ethanol feeding (rat), 94:545-ss
plasma levels in cirrhosis, 87:770
Gluten supplementation, in healthy siblings of children with celiac disease, 92:678
Glycine absorption in small intestinal transplants (rat), 94:863
Glycine amidates, carboxypeptidase hydrolysis of bile acid-amino acid conjugates, 90:306
Glycoconjugates
in colon
association between inflammation and neoplasia (monkey), 92:625
monoclonal antibodies in inflammatory bowel disease, 95:379
lectin binding patterns
in developing colon (rat), 92:1116
in gastric oxyntic and chief cells (rabbit), 95:334
Glycogen phosphorylase isoenzyme, in carcinoma and intestinal metaplasia of stomach, 93:35
Glycogen storage disease
cornstarch therapy, 89:442-ss
type Ia, Mallory bodies in, 92:520-cr
Glycoproteins
aminooligopeptidase synthesis by human intestine, 94:1426
antigenic, in ulcerative colitis, 95:371
asialo-, receptors in cirrhosis and liver cell carcinoma, 87:1217
of biliary sludge, 90:677
colonic mucin, in spontaneous colitis (tamarin), 88:20

gas clearance
endoscopy of colonic mucosal blood flow (dog), 92:1045
gastric mucosal blood flow measurement (rabbit, rat), 87:28
and sodium exchange
in antral cells (guinea pig, rabbit, and *Necturus*), 95:302
by ileal brush border membrane vesicles, 87:1397-ss; 95:388
and liver ursodeoxycholate metabolism (rat), 95:454
Hydrophobicity, of developing gastric mucosa, effects of corticosteroids, thyroxine, and prostaglandin E_2, 94:57
7-α-Hydroxy-4-cholesten-3-one, bile acid precursor in cerebrotendinous xanthomatosis, 87:276

Hydroxyl radical, in ischemia/reperfusion-induced gastric bleeding, 5-aminosalicylic acid actions (rat), 94:733
5-Hydroxytryptamine
and colonic nerves in streptozotocin-diabetes (rat), 95:1234
and diarrhea in morphine withdrawal (rat), 87:1042
ICI 169,369 effects in portal hypertension (rat), 95:1601
interaction with thyrotropin-releasing hormone, effects on antrum (guinea pig), 88:1126
prostaglandin E_2-mediated secretory response to, in small intestine, role of calcium (rat), 90:1972
25-Hydroxyvitamin D, in hereditary hemochromatosis, relation to iron status, 88:865
Hypercalcemia, acute, and exocrine pancreatic secretion (cat), 88:1168
Hypercholeresis, ursodeoxycholate, and sodium/hydrogen exchange (rat), 95:454
Hyperemia, inflammation-induced intestinal, role of neutrophils (rat), 95:1528
Hypergastrinemia, gastric mucosal vascular ectasias in cirrhosis, 93:1054
Hyperimmunoglobulin E-recurrent infection (Job's syndrome)
cryptococcosis of colon, 94:808-cr
esophageal cryptococcosis, 87:201-cr
Hyperlipidemia, cimetidine induction of chylomicronemia, 89:664-cr
Hyperosmolality, and cellular and paracellular ion transport in antrum (*Necturus*), 93:456
Hyperplasia, somatostatin-immunoreactive D-cell, in stomach and duodenum, 91:733
Hypersensitivity
of colonic epithelium, transfer by IgG (guinea pig), 92:635
immediate, in intestine, 88:847-ss
Hypertension
experimental portal, 88:606-c
and gastric diseases, 95:42
portal
and acute ischemic colitis, interior mesenteric arteriovenous fistula, 86:351-cr
and agnogenic myeloid metaplasia, 92:1067-cr
blockade of β_2-adrenergic receptors, effect on portal and systemic hemodynamics (rat), 88:896
direct transhepatic assessment, in cirrhosis and Budd–Chiari syndrome, 86:1395, 1611-e
Doppler flowmetry, 94:1242-c; 95:260-c
and feminization, 95:538-ss
"forward" and "backward" flow mechanisms (rat), 89:1092
gastric mucosa, 87:1404-c
blood flow and acid secretion (rat), 95:727
vasculopathy, 93:1129-e
hemorrhoids or rectal varices, 90:744-cr
ICI 169,369 effects on 5-hydroxytryptamine$_2$ receptors and portal pressure (rat), 95:1601
idiopathic
comparison with cirrhosis with splenomegaly, 86:600
hemodynamics in, comparison with chronic persistent hepatitis, 92:751, 824-e
portal vein thrombosis, 88:1034-cr
intestinal microvascular adaptation (rat), 94:471
intrahepatic vascular space (rat), 93:157
measurement of portal vascular resistance, 90:710
portal fibrosis model (rabbit), 94:787
prostaglandin E_2 in gastric mucosa, 93:135
somatostatin analogue SMS 201-995 effects (rat), 94:703
splanchnic and systemic hemodynamics during hemorrhage and blood volume restitution (rat), 90:1232, 1293-e
and spleen, 94:244-ss
vasopressin infusion during hemorrhage and blood transfusion (rat), 93:170
precirrhotic portal, in alcoholic liver disease (baboon), 88:143
pulmonary, complication of hepatocellular carcinoma, 87:1180-cr
Hyperthyroidism, in hepatocellular carcinoma, 88:181-cr
Hypertriglyceridemia, role of apolipoprotein C-III, 89:1203-ss
Hypnosis, and gastric acid secretion, 91:1581-c
Hypocalcemia, in acute pancreatitis, calcium depression by free fatty acids (rat), 89:814
Hypocholesterolemia, in chylomicron retention disease, 92:390
Hypogammaglobulinemia, Crohn's disease, suppressor T-cell activity, 86:569-cr
Hyposplenism, and gluten-sensitive enteropathy, 88:2021-c
Hypotension, orthostatic, gastrointestinal motility disturbances, 88:1852
Hypothyroidism, biliary cholesterol content and bile flow (rat), 91:297

Ibuprofen, in cirrhosis and ascites, 90:182
ICI 169,369, blockage of 5-hydroxytryptamine$_2$ receptors, decreased portal pressure, in portal hypertension (rat), 95:1601
Ileitis, terminal, associated with *Mycobacterium avium-intracellulare* infection, in homosexual man with AIDS, 92:1127
Ileocolon
junction, interdigestive motility (dog), 87:836
transit, scintigraphic measurement, 91:1213
Ileostomy
carcinoma development after 25 or more years, 95:205-cr
Ileostomy Handbook: Stoma Care and Management Techniques, 89:229-br
Ileum
alkaline phosphatase distribution, immunoperoxidase staining (rat), 87:827
azodisalicylate effects on electrolyte transport (rabbit), 95:975
bile acid
excretion, ursodeoxycholic acid treatment, 94:1201
malabsorption, 94:251-c
biopsy of Peyer's patches during endoscopy, 93:1356
brush border membrane vesicles
calmodulin-mediated effects of loperamide on chloride transport, 95:69
ontogeny of bile acid transport (rat), 90:1188
sodium/hydrogen exchange, 95:388
taurocholate transport, 93:925
BW 942C effects on sodium and chloride transport (rabbit), 94:127
chloroquine-treated, accumulation of intrinsic factor-cobalamin (mouse), 89:1353
and *Clostridium difficile* toxins A and B (rabbit), 93:273, 389-e
in diabetes, vasoactive intestinal polypeptide and calcitonin gene-related peptide release during enteric nerve stimulation (dog), 93:1034
dysfunction, 23-selena-25-homocholyltaurine test of bile acid malabsorption, 91:1, 242-e
electrolyte transport
SMS 201-995 effects (rabbit), 94:1343
structure-activity relationship of adrenergic compounds (rabbit), 86:120
enteroglucagon-containing cells, in short-term culture (dog), 93:791
fat emulsions, effect on feeding and satiety, 89:1293
function, γ-labeled bile acid as test of, 90:1129
and gastric emptying, 94:401
and jejunal fat absorption, electron microscopy, 94:1376
liquid and solid transit, 86:994-ss
M cells in Peyer's patches (mouse), 86:789
magnesium effect on active and passive sodium transport, 89:1050
microcirculation, ethanol-induced mucosal injury (dog), 87:562

morphine and atropine effects on motility and transit, 89:562
motility, stimulation by short-chain fatty acids, 95:1496
muscarinic receptors in longitudinal muscle (guinea pig), 88:706
nutrient effect on gastrointestinal transit and plasma levels of neurotensin and enteroglucagon, 86:274
partial bypass, effect on cholesterol and bile acid metabolism and vitamin B_{12} absorption, 90:984
permeability, effect of formyl-methionyl-leucyl-phenylalanine (rat), 95:651
terminal
emptying of, influence of meal residue and ileal motility, 92:724
motility in healthy humans, 87:857
selective delivery of oral beclomethasone dipropionate capsules, 92:1037
villin localization, 94:343
water absorption
benzodiazepine effects (rat), 93:330
stimulation by calcium channel blockers (rat), 89:858
and electrolytes, central action of GABA ligands, 88:523
Ileus, capsaicin effects (rat), 91:360
Iminodiacetic acid, technetium 99m-labeled, diagnosis of sclerosing cholangitis, 92:777
Immune complexes
in autoimmune chronic active hepatitis, 92:304
clearance, in primary sclerosing cholangitis, 88:166
Fc receptors of liver sinusoidal endothelium (human, rat), 93:1078
in primary bile acid malabsorption, 92:1851
in primary biliary cirrhosis
penicillamine effect, 88:412
with ribonucleoprotein antigen Ro, 90:724
Immune deficiency, and primary biliary cirrhosis, 92:270-c
Immune response
to bacterial flora, self-filling blind loops (rat), 91:1495
epitope-specific, in rotavirus vaccination, 93:941
in host defense mechanisms against human hepatoma cells, 86:582-ss
intestinal, and inflammation, 91:746-cr
mucosal T cells in lymphogranuloma venereum proctitis (monkey), 94:353
neuropeptide modulation of, 91:485-ss
Immunity, gastrointestinal, neurohormonal regulation, 93:1431-e
Immunization with hepatitis B core antigen, protection against hepatitis virus infection, 88:763
Immunochemistry
CCK in plasma, 87:434-e
gastrinlike and CCK-like peptides in response to peptone meal (dog), 87:323
of pepsinogen I, 92:143
Immunocompetence, self-limited cytomegalovirus colitis, 94:194-cr
Immunocytochemistry
alkaline phosphatase distribution in ileum (rat), 87:827
calcitonin gene-related peptide
in pancreatic islet cells and nerve fibers (rat), 90:1155
in sensory and motor nerves of esophagus (cat, monkey, rat), 88:444
IgA in bile after inoculation of *Giardia lamblia* trophozoites into duodenum (rat), 87:1022
lingual lipase localization in von Ebner gland (rat), 90:1170, 1290-e
uridine 5′-diphosphate-glucuronosyltransferase localization, 93:162
Immunofluorescence, cell suspension, gut leukocyte recognition of mucosal lymphoid high endothelium (mouse), 94:576
Immunoglobulin A (IgA)
in alcoholic liver disease, 94:457
antibody, against hepatitis B core antigen, in acute and chronic infection with hepatitis B virus, 89:1109
biliary, intestinal immunization with cholera toxin (rat), 93:539
binding to hepatocytes, aging effects, 89:919-ss
deficiency, and primary biliary cirrhosis, 92:270-c
in family with liver disease, 90:283
dimeric, aging effect on hepatobiliary transport of (rat), 88:436
epithelial cells overlying gut-associated lymphoid tissue (rabbit), 95:1173
and IgG, food-induced antibodies in intestine, cholecystokinin effects (rat), 93:1242, 1431-e
intestinal, response to *Campylobacter jejuni* antigens, 90:1217
and lymphocyte killing of bacteria in gut, 87:2240-ss
multistep regulation, 89:920-ss
in plasma cell infiltration of digestive tract, role of secretory component, 95:1106-cr
receptor
alternate pathway, transport of antisecretory component in cultured hepatocytes, 88:1791
polymeric, secretory component synthesis in hepatocytes (rat), 93:1194
in small intestinal enterocytes, aging effects (rat), 94:1432
receptor-mediated binding and uptake by liver, 94:762
secretion patterns by intestinal mononuclear cells, in inflammatory bowel disease, 91:379
secretory, in bile after inoculation of *Giardia lamblia* trophozoites into duodenum (rat), 87:1022
in self-filling blind loops, immune response to luminal bacterial flora (rat), 91:1495
Immunoglobulin G (IgG)
hypersensitivity transfer to colonic epithelium (guinea pig), 92:635
intestinal uptake (rat), 92:186
mucosal distribution of, in ulcerative colitis and Crohn's disease, 93:919, 1127-e
Immunoglobulin M (IgM)
antibody, to hepatitis B core antigen, in chronic type B hepatitis, 89:252
immunodeficiency, and primary sclerosing cholangitis, 91:464-cr
low molecular weight, antibody to hepatitis B core antigen, 91:168
differentiation of acute and persistent hepatitis B virus infection, 87:159
Immunoglobulins
biliary, origins of (rat), 87:173, 234-e
in epithelium of inflamed gastric mucosa, 86:402
polymeric receptor, secretory component, 89:667-pa
in primary biliary cirrhosis, penicillamine effects, 88:412
subclasses, J-chain expression in inflammatory bowel disease, 94:1419
synthesis, suppression by lymphocyte subpopulations, in Crohn's disease, 86:1510
and transfusion-associated non-A, non-B hepatitis, 95:1685-ss
Immunogold and electron microscopic studies of gastrin biosynthesis, 92:1146
Immunohistochemistry
amiodarone-associated phospholipidosis and fibrosis of liver, 86:926
diffuse lymphomatous polyposis of gastrointestinal tract, 88:1267-cr
epithelial cell proliferation in hyperplastic polyps, adenomas, and adenocarcinomas of large bowel, 94:899
intestinal IgG and acid phosphatase (rat), 92:186
marker for mucosal dysplasia in ulcerative colitis, 93:1346
secretory component localization during liver necrosis, 86:521
sensory substance P innervation of stomach and pancreas (rat), 87:914
slow moving proteinase in gastric mucosa, 93:77
ulcerative colitis, monoclonal antibodies against tumor-associated and/or differentiation antigens, 95:686
Immunology
Advances in Host Defense Mechanisms: Mucosal Immunity (Volume 4), 91:784-br

Immunology (cont'd)
autoimmune gastritis induced by neonatal thymectomy (mouse), 94:274
Gastrointestinal Immunity for the Clinician, 90:1305-br
hepatitis B virus infection, protection by immunization with hepatitis B core antigen, 88:763
Immunology of the Gastrointestinal Tract and Liver, 95:541-br
Local Immune Responses of the Gut, 90:504-br
lymphocyte phenotypes in lamina propria, in Crohn's disease, 91:1483

stimulation of collagen synthesis, liver myofibroblasts (baboon), 87:777
Lactation, gastrin, somatostatin, and CCK immunoreactivity (dog), 92:578
Lactobionate solution, liver preservation (rat), 95:1617
Lactoferrin, in epithelium of inflamed gastric mucosa, 86:402

β-Lactoglobulin
colonic sensitivity to, transfer by IgG (guinea pig), 92:635
intestinal clearance, ethanol-induced mucosal injury (dog), 87:562
Lactose
intolerance, yogurt digestion, 88:209-ss; 95:247-ss
malabsorption, and irritable bowel syndrome, psychologic distress, 95:709
Lactulose
breath tests, in small intestinal bacterial overgrowth, 91:1447
detoxification of short-chain fatty acids in colon, role in hepatic coma, 94:750
Lamina propria, lymphocyte phenotypes, in Crohn's disease, 91:1483
Laminin, immunolocalization and biosynthesis by hepatic lipocytes, 94:1053
Languages, German difficulties, 94:858-c
Laparotomy
gastric mucosal protective mechanism, ethanol injury (rat), 95:600
and medical treatment, in Zollinger–Ellison syndrome, 89:357, 435-e
Laser endoscopy
neodymium:yttrium-aluminum-garnet (Nd:YAG)
adenocarcinoma of gastric cardia, 87:815, 974-e
and argon, villous adenomas of rectum, 89:832
for esophagogastric cancer, 89:827
intrahepatic photocoagulation (rat), 93:550
Neodymium-YAG Laser in Medicine and Surgery, 88:216-br
photocoagulation, in colorectal adenoma, 90:1865, 2023-e
photoablation of rectosigmoid carcinoma, 92:663
reflection and transmission, from esophagus, role of incident angle, 94:1180
yttrium-aluminum-garnet (YAG)
or BICAP tumor probe, for esophageal cancer stricture, 95:1696-c
for gut arterial coagulation (dog), 92:1101
low power, palliation of esophageal cancer strictures, 94:1263
Lasers
and cancer, 88:605-c
Doppler flowmetry, intestinal blood flow (cat), 88:951, 1073-e
Surgical Lasers: A Clinical Guide, 93:1446-br
tunable dye, fragmentation of biliary calculi, 93:250
Lavage
peritoneal, in hemorrhagic pancreatitis (mouse), 95:1648
polyethylene glycol effects, 95:1693-c
Lecithin:cholesterol acyltransferase, lipoprotein abnormalities in primary biliary cirrhosis, 89:1266, 1426-e
Lectin
binding
to goblet cell mucin in malignant and premalignant colonic epithelium (mouse), 89:127
patterns, in developing colon (rat), 92:1116
sites in gastric oxyntic and chief cells (rabbit), 95:334
blotting, of pancreatic cancer-related glycoprotein, 95:137
marker for mucosal dysplasia in ulcerative colitis, 93:1346
mitogenic, activation by inflammatory bowel disease peripheral blood and intestinal mononuclear cells, 90:6
Legionella pneumophila, febrile illness from oral administration of (guinea pig), 95:1575
Leiomyoblastoma, gastric, with metastases to liver, 89:875-cr
Leiomyosarcoma, epithelioid, from hamartomatous polyp, in Peutz–Jeghers syndrome, 88:1060-cr
Leishmaniasis, visceral, hepatic fibrin-ring granulomas, 95:1123-cr
Leukemia, basophilic, and hypersecretion of gastric acid and pepsin, 95:195-cr
Leukocytes
allogeneic and autologous mixed reaction, peripheral blood mononuclear cells, in inflammatory bowel disease, 86:476
in Crohn's disease, technetium 99m-hexamethyl propylene amine oxine label, 95:1287
indium-labeled, in Crohn's disease, 88:221-c
from intestinal lumen of *Giardia*-infected immunocompetent and nude mice, 89:1360
intraepithelial, selective recognition of mucosal lymphoid high endothelium (mouse), 94:576
Leukotriene B_4
and C_4, in colitis (rabbit), 92:33
rectal, in ulcerative colitis, effects of topical 5-aminosalicylic acid and prednisolone, 91:837
synthesis in colonic mucosa, in inflammatory bowel disease, 86:453
Leukotriene C_4, in necrotizing enterocolitis, 92:547-ss
Leukotrienes
and gastric acid and alkaline secretions (dog), 92:1209
and norepinephrine release in bowel after platelet-activating factor (rat), 94:1412
Levamisole, for chronic type B hepatitis, 91:692
Lewy bodies, esophageal, association with ganglion cell loss in achala-

sia, similarity to Parkinson's disease, 87:848
Lidamidine hydrochloride, and loperamide, comparative effects on gastric emptying and transit in small intestine, 90:68
Lignan precursors in fiber-rich food, protection against colon and breast cancer, 86:761-e
Lingual lipase
in cystic fibrosis, 87:732-ss
immunocytochemical localization in von Ebner gland (rat), 90:1170, 1290-e
Linoleic acid, dietary, and gastric acid and prostaglandin secretion, 94:955; 95:18
Lipase
and colipase in childhood-onset pancreatic insufficiency, 86:1
congenital deficiency, 86:1580-cr
gastric, localization in human stomach, 95:1460
human preduodenal, gastric fundic origin, 95:1221
pancreatic secretion, inhibition by glucose (rat), 87:1305
Lipids
biliary
and apolipoprotein B excretion by liver (rat), 92:1236
in celiac disease, 88:134
chenodeoxycholic and ursodeoxycholic acid effects, in patients with gallstones, 87:136
in cholesterol gallstone disease, 89:287
coupling, ursodeoxycholic acid effects, during fasting and eating, 95:408
in gallstone patients, 90:2040-c
of sludge, 90:677
composition, small intestine (rabbit), 86:1544
and glucose
effect on protein kinetics (rat), 91:305
varied ratios in total parenteral nutrition, in critically ill patients, 87:53, 226-e
hepatic metabolism, lipoprotein catabolism, 88:192-pa
ileal, regulation of gastric emptying, 94:401
intraduodenal, jejunal secretory effect of, 88:1215
Liver and Lipid Metabolism, 89:923-br
peroxidation, hepatic microsomal function in iron overload (rat), 90:1844
and rectosigmoid motility, 94:1144
secretion and composition in bile, effect of ursocholic acid, 90:865
in total parenteral nutrition for Crohn's disease, association of acute pancreatitis, 90:1039-cr
Lipoarabinomannan, antibodies to mycobacterial antigens in Crohn's disease, 94:1404
Lipocytes
hepatic, laminin immunolocalization and synthesis, 94:1053
as source of proteoglycan, formation of liver extracellular matrix (rat), 95:441
transformation to transitional cells, alcoholic liver injury (baboon), 87:188
Lipolysis
gastric lipase action on short- and long-chain triacylglycerol emulsions, 91:919
nonpancreatic, in exocrine pancreatic insufficiency, 92:125
Lipooxygenase pathway, arachidonic acid metabolism in acetic acid colitis (rat), 88:55
Lipoprotein
abnormalities in primary biliary cirrhosis, 89:1266, 1426-e
and cholesterol
absorption in gut resections, 94:582
-bile acid axis, gallstone dissolution, ursodeoxycholic acid effects, 87:[illegible]9-e
serum levels during total parenteral nutrition, 95:394
degradation, role of liver, 88:192-pa
high density
binding to intestinal epithelial cell basolateral plasma membranes, 90:1302-ss
intestinal formation, 86:1619-ss
intestinal synthesis of apolipoprotein B-48 in abetalipoproteinemia, 93:1119
low-density
hepatic and bile secretion (hamster), 93:1104
and liver cholesterol secretion (rat), 95:771
Lipoprotein X, function in cholestasis, 88:848-ss
Liquids, κ-opioid agonists, and gastric emptying (dog), 95:927
Lithium carbonate, for chronic secretory diarrhea of unknown origin, 87:714-cr
Lithium chloride
and gastric acid secretion (rat), 95:1454
protective and antisecretory properties (rat), 87:362
Lithocholic acid metabolism (squirrel monkey), 89:631
Lithotripsy, biliary shock-wave, 94:1512-ss
Liver
abscesses as complication of sump syndrome, combined surgical and endoscopic therapy, 92:791
adenomatosis, 90:1312-c
aging effect on hepatobiliary transport of dimeric IgA (rat), 88:436
albumin role in taurocholate uptake, 92:1097-c
alcohol dehydrogenase in fat-storing (Ito) cells (rat), 94:163
alkaline phosphatase, ontogeny and phylogeny of (birds, fish, guinea pig, reptiles), 91:277
amiodarone
clinical and morphological effects, 88:1091-c
and phospholipidosis and fibrosis, 86:926
androgen receptors
alcohol effects (rat), 93:1162
cytosolic and nuclear, effect of spironolactone and potassium canrenoate (rat), 93:681
aneurysm of intrahepatic branch of portal vein, 86:169-cr
antigens, T-lymphocyte sensitization to, in autoimmune chronic active hepatitis and primary biliary cirrhosis, 810
arterial embolization, in unresectable hepatocellular carcinoma, 94:453
asialoglycoprotein receptors (rat), 86:142
ultrastructural immunocytochemistry (rat), 87:763
ATP loss during hypothermic preservation, glucose pretreatment (rat), 95:1043
ATPase, Na/K, localization on hepatocyte plasma membrane, 87:1206-c
azathioprine toxicity, 86:162-cr
bile acid secretion rate, bedtime administration, 95:1029
biliary excretion of apolipoprotein B (rat), 92:1236
bilirubin
and BSP transport, role of Z-protein, 89:446-ss
glucuronide synthesis (monkey), 91:287
biloma complication in sickle cell disease, 86:743-cr
binding and kinetics of synthetic γ-labeled bile acid, 94:771
biopsy, hematomas after, 95:575-c
blood flow
cimetidine effect, 86:991-ss
and galactose clearance, 94:477; 95:1157-c
and serum bile acids, intrahepatic shunting, 88:221-c
and bone marrow transplantation, 90:460-pa, 770-pa
calcification after shock liver, 89:196-cr
Carcinoma of the Liver, Biliary Tract, and Pancreas, 88:1088-br
carnitine effects, and home parenteral nutrition, 94:434
in cat scratch disease, 89:1400-cr

mucosa, in alcoholic cirrhosis and portal hypertension, 93:135
mucus pH (dog), 95:612
and gastrointestinal ulcer formation (rabbit), 93:744
and glycoprotein synthesis, gastric mucous cells (rat), 87:409
and hydrophobicity of developing gastric mucosa (rat), 94:57
hyperplasia of small intestinal epithelium (rat), 94:1335
intraluminal, and gallbladder epithelial secretion and ultrastructure (mouse), 95:1632
jejunal
microvascular effects of ethanol (dog), 94:726
water and electrolyte transport, CNS role (dog), 91:1427
and microcirculatory stasis in acute gastric mucosal injury (rat), 91:1415
and proliferative activity of colonic epithelium induced by indomethacin and aspirin (rat), 89:1054
protection against alcohol-induced gastric damage, role of vagus nerve (rat), 87:903
rectal, in ulcerative colitis, effects of topical 5-aminosalicylic acid and prednisolone, 91:837
in refractory hepatic ascites, response to peritoneovenous shunting, 95:1332
reversal of mepirizole action on duodenal alkaline secretion (rat), 87:396, 438-e
trophic actions in gastrointestinal mucosa (rat), 89:1393
Prostaglandin $F_{2\beta}$, and ethanol-induced damage to gastric capillaries (rat), 92:13
Prostaglandins
and adaptive cytoprotection (rat), 94:948
antibodies, in peptic ulcer disease, 91:71
central control of intestinal motility (dog, rat), 88:1888
colonic
blood flow (rabbit), 92:54
epithelial proliferation with aspirin treatment (rat), 94:567
cytoprotection against ethanol-induced gastric injury (rat), 88:649
cytoprotective dose, 93:434-c
E-type, regulation of basal alkaline secretion by duodenum (frog), 88:290

Prostaglandins (cont'd)
endogenous and exogenous, and glycoprotein synthesis and secretion in gastric mucosa (rabbit), 95:945
in fulminant murine hepatitis, 95:537-ss
gastric
and dietary linoleic acid, 94:955
dysrhythmias (dog), 92:993
hemorrhagic damage (rat), 94:22, 232-e
mucosa
fluorescent in vivo microscopy (rat), 89:415
indomethacin effect, 92:969
protection against acid (rat), 91:318
laparotomy effects (rat), 95:600
protection by sucralfate (monkey), 91:660
ulcer healing (rat), 95:636
and gastrointestinal mucosa, role in function, disease, and treatment, 89:1162-pa
and indomethacin
gastric antral ulcers (hamster), 95:932
and gastric acid secretion, 93:63
in liver cirrhosis, inhibition effects on systemic and hepatic hemodynamics, 88:430
and mechanical properties of lower esophageal sphincter (cat), 87:8
and secretin-mediated inhibition of gastric acid secretion (dog), 95:625
and smoking and duodenal ulcer relapse, 95:256-c
and sodium- and bicarbonate-induced dissipation of proton gradient, gastric mucosal surface cells (rabbit), 89:500
and taurocholate-induced damage to gastric mucosal cell culture (rat), 92:669
therapy in acute pancreatitis, 87:977-ss
Prostanoid inhibition of parietal cells, role of GTP-binding protein of adenylate cyclase (dog), 94:1121
Prosthesis, *Reflux Esophagitis and the Angelchik Prosthesis*, 93:1446-br
Protamine sulfate, and charge selectivity of intestinal capillaries (rat), 91:1443
Proteases
inhibitor-resistant mesotrypsin, pancreatic, 86:681, 764-e
in pancreatic juice, inhibition of pancreatic secretion (rat), 86:114
suppression of pancreatic exocrine secretion, 87:44
Protein kinase C
and colonic epithelial stimulation by unsaturated fatty acids (rat), 95:676
and sphingoid bases, 92:1089-ss
structure of, 92:1272-ss
Protein S deficiency, mesenteric vein thrombosis, 92:240-cr
Protein-energy malnutrition, jejunal absorptive epithelial cells and subcellular organelles (rat), 93:1381
Protein-losing enteropathy, lymphangiectasia of large intestine, 91:719-cr
Proteinase
Entamoeba histolytica cytotoxin, 87:17
slow moving, in gastric mucosa, 93:77
Proteins
of ascitic fluid, and spontaneous bacterial peritonitis, 93:915-c
bile canaliculus, 87:238-ss
biliary, and nucleation defect in cholesterol cholelithiasis, 92:867
binding
hepatocellular heterogeneity, 95:1130-ra
and intestinal hydrolysis of pyridoxal 5'-phosphate (rat), 91:343
contractile, of gallbladder smooth muscle after high-cholesterol feeding (prairie dog), 92:746
cow's milk, antibodies to, in ulcerative colitis and Crohn's disease, 92:479
dietary, protection against bile acid effects on jejunum and stomach (rat), 88:1183
digestion
peptidase role in human small intestine, 88:1071-e
after small bowel resection, 88:2004-ss
estrogen binding, in Morris hepatoma 7777 and normal liver (rat), 86:1410
Gc (vitamin D-binding), in fulminant hepatic necrosis, 94:1454
GTP-binding, of adenylate cyclase, and prostanoid inhibition of parietal cells (dog), 94:1121
intestinal synthesis of, heparin effects, 93:801
intraduodenal, jejunal secretory effect of, 88:1215
kinetics, with parenteral glucose-lipid administration (rat), 91:305
liver-specific, organ specificity, 88:219-c
losing enteropathy, diagnosis of, 87:1406-c
loss, ethanol-induced mucosal microvascular stasis, in jejunum (dog), 86:413
low molecular weight, renal tubule reclamation of in pancreatitis and alcoholism, 92:161
metabolism, and cancer cachexia, 88:589-ss
pancreatic stone, mRNA encoding, 89:381
Plasma Protein Secretion by the Liver, 88:1289-br
polypeptide fragments, uptake by intestine (rat), 95:1272
pre-S encoded, and major viral surface antigen, in acute hepatitis B virus infection, 92:1864
secretory, subcellular location in liver during ethanol-induced inhibition (rat), 90:158
synthesis
in fibroblasts and intestinal mucosa, inhibition by *Clostridium difficile* cytotoxin (hamster), 91:1147
type I procollagen mRNA, in chronic alcoholic liver disease (baboon), 89:1123
Z, role in hepatic transport of bilirubin and BSP, 89:446-ss
Proteinuria, in hepatitis B-associated glomerulonephritis, interferon treatment, 92:524-cr
Proteoglycans
and hepatic fibrosis, 92:536-e
lipocytes as source of, liver extracellular matrix (rat), 95:441
Proton pump, gastric, immunoassay of, 90:532
Protooncogenes
abnormalities, in colon cancers and adenomatous polyps, 92:1174
and colon cancer, 94:1100-ss

intrahepatic and subcapsular hematomas after percutaneous liver biopsy, 92:290
Manual of Abdominal Ultrasonography, 87:984-br
percutaneous liver biopsy, 95:487
quantitative, diagnosis of parenchymal liver disease, 94:157
real-time
measurement of gastric emptying, 89:752
small hepatocellular carcinoma, 86:495
and scintigraphy, cholestasis evaluation, 90:734
Ultrastructure. *See* Microscopy, electron.
Uridine 5′-diphosphate glucuronyltransferase
bilirubin, activity in liver, role of sex and sex steroids (rat), 87:308
and hepatobiliary excretion of organic anions (rat), 93:1094
human, monoclonal antibodies against (mouse), 93:162
Urine, bile acids in liver disease, 94:1236-ss
Uroporphyrinogen decarboxylase, in liver, inhibition by ferrous iron, role in porphyria cutanea tarda, 87:1248
Urotensin I
in nonocclusive mesenteric ischemia (dog), 90:669
selective mesenteric vasodilatation (dog), 87:94
Ursodeoxycholic acid
for bile reflux gastritis, 89:1000; 92:269-c
and bile secretion, and hepatic low-density lipoprotein uptake (hamster), 93:1104
and biliary lipid coupling and cholesterol absorption, during fasting and eating, 95:409
and chenodeoxycholate, effects on biliary lipid secretion and bile acid synthesis, patients with gallstones, 87:136
and cholesterol
and bile acid metabolism, 91:1007-pa
saturation index of gallbladder, after sphincterotomy, 95:1595
and gallbladder function, 95:740
gallstone therapy
and gallbladder emptying, 87:299
microscopy prediction of outcome, 91:703
hypercholeresis, secretion, and glucuronidation, and sodium/hydrogen exchange in liver (rat), 95:454
and ileal excretion of bile acids, 94:1201
or nor-, and hepatic histology and bile acid metabolism, 91:189
for primary biliary cirrhosis, 93:910-ss
serum levels in portal venous and systemic venous blood of fasting humans, isotope dilution-mass spectrometry, 88:126
simulated bile, dissolution of human cholesterol gallstones, 87:150, 229-e
synthesis in nutria, 90:702
and taurine conjugate, effect on bile acid synthesis and cholesterol absorption, 87:130
transformation from chenodeoxycholic acid, in Crohn's disease, 90:718

Vaccines
hepatitis B
for babies of carrier mothers, 94:1101-ss
without HBsAg, immune mimicry via antiidiotype antibodies, 91:1027-ss
rotavirus, 90:246-ss
epitope-specific immune responses, 93:941
Vagotomy
and antrectomy
effects on gastric acid secretion, 87:2377
fat absorption (dog), 94:50
gallbladder emptying, 89:716
for gastric and duodenal ulcers, somatostatin-immunoreactive cells in gastric mucosa, 89:736
and mucosal protection against alcohol-induced gastric damage (rat), 87:903
nerve regeneration after, 89:694-ss
parietal cell, and 24-hour gastric acid secretion in duodenal ulcer patients, 90:540
postvagotomy diarrhea, 87:250-c
Les Recidives apres Vagotomies pour Ulcere Duodenal, 87:246-br
recurrences after, in ulcer disease, 87:1196-ss
truncal, hypergastrinemia (dog), 88:35
in Zollinger–Ellison syndrome, 89:357, 435-e; 94:294
Vagus nerve
blockade, cyclic motor activity of stomach and small intestine (dog), 88:1926
control of gas reflux and lower esophageal sphincter relaxation (dog), 91:890
direct stimulation of pancreatic enzyme output, 87:109
and enterogastrone interaction, 91:1024-ss
and gastric bicarbonate secretion, 89:581
and gastrin and somatostatin release (dog), 93:994

and gastrin-releasing peptide, pepsinogen secretion from stomach (pig), 95:1216
medullary parasympathetic projections, stomach innervation (cat), 95:277
and migrating motor complex activity (dog), 87:76
preganglionic efferent fibers in greater curvature of stomach (rat, ferret), 94:1292
trophic control of stomach (rat), 86:28
Vagal Nerve Function: Behavioral and Methodological Considerations, 88:854-br
Valosin, and gastric and exocrine pancreatic secretion, and small intestinal myoelectric activity (dog), 92:1181
Valvulae conniventes, scalloping, endoscopic marker in celiac sprue, 95:1518
Vancomycin and bacitracin, comparative effects in *Clostridium difficile* colitis, 89:1038, 1192-e
Vasoactive drugs, microvascular permeability and hemorrhagic pancreatitis (cat), 93:1296
Vasoactive intestinal peptide (VIP)
colonic
idiopathic chronic constipation, 94:300
nerves in streptozotocin-diabetes (rat), 95:1234
in cultured neurons, enteric nervous system from neonatal intestine (hamster), 95:1003
during electrical stimulation of enteric nerves in diabetes (rat), 93:1034
endocrine effects in colorectum, 94:832-pa
enteric nerves in diabetes (rat), 89:967
and gastric secretion of gastrin and somatostatin (rat), 86:839
immunoreactivity in esophagus (opossum), 92:1007
internal anal sphincter relaxation (rabbit), 89:867
and intestinal mucosa during neural stimulation (guinea pig), 92:361
in jejunum, effect of myenteric neuron ablation (rat), 92:338
and peptide histidine isoleucine immunoreactivity in GI tract (pig), 89:516
receptors, during enterocyte differentiation, 94:848-ss
relaxant neurotransmitter in tenia coli (guinea pig), 89:36
in stomach wall nerve fibers (mouse, rat), 89:73
tumor, short-term culture of, 94:513-cr
pancreatic, pathophysiology of pancreatic cholera syndrome, 94:813-cr

and drug-induced coma, 86:540
and hyperammonemic encephalopathy, postictal coma, neurotoxin coma, 86:546
Vitamin A
for Crohn's disease, 88:512
deficiency, and ethanol, esophageal structure (rat), 93:362
hepatic metabolism, 91:1570-ss
relative dose-response, 95:249-ss
Vitamin B_6
and atrophic gastritis in elderly, 93:222-c
intestinal hydrolysis of pyridoxal 5′-phosphate (rat), 91:343
Vitamin B_{12}. *See* Cobalamin

Vitamin D
and cancer and differentiation, 86:1621-ss
enterohepatic circulation, 89:218-ss
liponomic regulation of intestinal calcium transport, 89:1202-ss
and metabolic bone disease after partial gastrectomy, 92:608
metabolism, and osteomalacia, in cystic fibrosis, 88:808-cr
polyamines, and intestinal cells, 93:394-ss
status after biliopancreatic bypass for obesity, 87:350
Vitamin D-binding protein complexes, in fulminant hepatic necrosis, 94:1454
Vitamin E
in cholestasis, 88:588-ss
deficiency
during chronic childhood cholestasis, treatment with α-tocopheryl polyethylene glycol-1000 succinate, 93:975
and neurologic syndrome in primary biliary cirrhosis, 91:209
Vitamins, fat-soluble, in primary biliary cirrhosis, 95:787
Vomiting
in acute radiation syndrome, 95:500-ra
and fractionated doses of ionizing radiation, 95:1249
gastrointestinal motor correlates of (dog), 90:40
radiation effects on gastric secretion and motility (dog), 86:444; (monkey) 89:374
von Recklinghausen's disease, hepatic neurofibromatosis, malignant schwannoma, and angiosarcoma in, 92:234-cr

Waldenström's macroglobulinemia, peliosis hepatis, nodular regenerative hyperplasia, and light-chain deposition, 95:482-cr
Walrus meat, arctic trichinosis with prolonged diarrhea, 91:938
Water
absorption
by ileum
benzodiazepine effects (rat), 93:330
central action of GABA ligands (rat), 88:523
and colon, stimulation by calcium channel blockers (rat), 89:858
in jejunum, prostaglandin E_2 effects (dog), 94:726
in small intestine
transplants (rat), 94:863, 1087-e
infusion rate changes vs. glucose concentration (pig), 94:722
balance, peritoneovenous shunt effects, 90:127
diuresis in cirrhosis with ascites, effects of intrarenal thromboxane A_2, 95:1081
and electrolyte transport in jejunum, neurotensin effects (dog), 86:1552
excretion, and antidiuretic hormone hypersecretion, temporal relationship, in cirrhosis (rat), 93:498
fecal, comparison of dialysis with ultrafiltration, 86:1557
renal handling, in liver disease, 89:1415-pa
serotonin-induced jejunal secretion of, verapamil reversal (dog), 90:515
transport
human jejunum, motilin effect, 87:550
in intestine
loperamide effects, 90:85
morphine tolerance and withdrawal (rat), 87:1035
in jejunum
CNS role in prostaglandin effects (dog), 91:1427
stress effects, 93:91; 94:994
Water brash, salivary response to esophageal acid in reflux esophagitis, 93:1393
Weaning, appearance of mucosal receptors for enteropathogenic *Escherichia coli* (rabbit), 87:821
Wegener's granulomatosis, mimicking of inflammatory bowel disease, 87:426-cr
Wheat starch, colonic metabolism of, 90:111
Whipple's disease
antibiotic treatment, 88:1867
dementia reversal by trimethoprim-sulfamethoxazole, 86:745-cr
hepatic granulomas, 86:753-cr
impaired bacterial degradation by monocytes and macrophages, 89:1139-cr
microorganisms as cause of, 91:1580-c
sarcoidlike granulomas as early manifestation, 87:941-cr
Wilms' tumor, metastatic, acute hepatic vein occlusion (Budd–Chiari syndrome), 88:576-cr
Wilson's disease
gene localization on chromosome 13, 89:1438-ss
Wilson's Disease, 87:1403-br
Wine, intragastric infusions, and serum gastrin and gastric acid secretion, 91:1390
WR 2721, protection of colon from radiation injury (rat), 91:644

X-linked lymphoproliferative syndrome, and hepatitis, 93:1210
Xanthine oxidase
in gastric ischemia (cat), 90:362; (rat), 92:950
inhibitors, and vascular permeability in intestinal ischemia (cat), 90:80
Xylose
breath tests, intestinal bacterial overgrowth, 91:1447
testing review, 95:223-ra

Yellow nail syndrome, and intestinal lymphangiectasia, 94:858-c
Yersinia enterocolitica
gastrointestinal infection, 92:112; 93:1147-c
peritonitis, 89:927-c
and small intestinal solute and fluid absorption (rabbit), 94:664
spontaneous peritonitis, in idiopathic hemochromatosis, 87:1372-cr
Yogurt, lactose digestion, 88:209-ss; 95:247-ss

Zinc
and anemia, 95:849-c
decreased liver collagen accumulation (rat), 86:532
and mucosal hyperplasia after bowel resection, 92:127-ss
supplemental therapy, and copper deficiency, 94:508-cr
Zollinger–Ellison syndrome
angiography in, 92:913
bone metastases, 91:1179-cr
chemotherapy study, 94:1326
cimetidine treatment, 86:992-ss; 93:69
exploratory laparotomy, proximal gastric vagotomy, and H_2-receptor antagonists, 89:357, 435-e
famotidine treatment compared with cimetidine and ranitidine, 88:1026
gastrin precursors, 92:1908
gastrinoma localization by CT, 92:905
omeprazole treatment, 88:939
and previous gastric surgery, 94:294
pseudo-, in child presenting with anemia, 92:508-cr
surgical perspective, 95:1699
resection of jejunal gastrinoma containing growth hormone-releasing factor, 92:814-cr
terbutaline effects, 95:913
Zymogen
mesotrypsin isolation from human pancreas, 86:681
pancreatic granules (rat), 91:1433
